The El Paso Metropolitan Planning Organization (EPMPO) will be commencing a 30-day public review and comment period from March 9, 2018 through April 9, 2018 via Public Open House meetings listed below. The public is invited to attend to provide feedback for the region’s Draft Destino 2045 Metropolitan Transportation Plan (MTP), Destino 2019-2022 Transportation Improvement Program (TIP), and Draft Transportation Conformity Report for the Destino 2045 MTP. The MTP is a 27-year plan and the framework for the MPO’s transportation planning activities. The plan identifies future transportation needs in the El Paso region and guides the expenditure of federal, state, and local funds that become available for identified projects. The current Horizon 2040 MTP was approved in October 2013. Additionally, transit projects are included in this MTP and TIP. This public notice and time established for public review and comments satisfies FTA Program of Projects (POP) as well as Sun Metro’s FTA 5307 Program of Projects and public participation requirements.

Copies of all documents will be available for viewing at the following public open house sessions, at the El Paso MPO office, 211 N. Florence Room 202, and available online at the EPMPO’s website (www.elpasompo.org).

The public Open Houses will be held:

- **Wednesday March 21, 2018**
  - Pebble Hills RCC- 5:30PM-7PM- 10780 Pebble Hills, Suite A, El Paso, TX 79935

The open houses will include information about EPMPO, the Draft Destino 2045 MTP, and the plan development process. The goal of the open house is to gain feedback from the community on the Draft Destino 2045 MTP representing the future regional transportation system and the appropriate means of supporting growth with various modes of transportation (i.e. roadway, bicycle, pedestrian, public transportation, and freight). The EPMPO would also like to gather feedback on the Draft Destino 2019-2022 TIP, which programs funding for expenditure in the short-term period of the plan, as well as the Transportation Conformity Report, which discusses the plan’s impact on regional air quality.

Transportation planning is significant to everyone. As the region continues to grow, it is EPMPO’s responsibility to ensure that the transportation system within the MPO area remains safe and efficient. For additional information, please call (915) 212-0258 or contact Roger Williams at rwilliams@elpasompo.org.
