Preamble

The El Paso Metropolitan Planning Organization (EPMPO) Program Management Plan (PMP) was adopted by the Transportation Policy Board (TPB) on March 7, 2014 with subsequent revisions as allowed per Federal Transit Administration guidance for management plan revisions as needed or required.

1.0 Goals and Objectives

The goal of this Program Management Plan (PMP) is to describe the El Paso Metropolitan Planning Organization’s (EPMPO) process for managing the Federal Transit Administration (FTA) 5310 program within the El Paso urbanized area. As part of this process, EPMPO intends to fulfill the following objectives:

- Identify, contact and inform public agencies, community organizations and non-profit and eligible private for profit organizations providing service for seniors and persons with disabilities, as to the availability of 5310 program grant funds;
- Establish, promote and outline a process for soliciting and evaluating 5310 program funding proposals;
- Assure that proposals selected for funding are responsive to one or more of the needs identified in the Far West Texas/El Paso (WTEP) Regional Transportation Coordination Plan;
- Assure that proposals selected for funding are responsive to one or more strategies and/or objectives in the EPMPO Congestion Management Process (CMP);
- Establish the requirements for the selected projects to enter into grant agreements with EPMPO; and,
- Summarize the requirements for managing and reporting the progress for implementing the funded projects.

This PMP is a living document. It will be updated regularly to incorporate any expansions and enhancements of the 5310 program, as well as any revisions to the programs’ management, requirements, or guidelines. Both the EPMPO MTP and CMP may be downloaded off the EPMPO website at www.elpasompo.org or requested at the EPMPO offices at 211 N. Florence, Suite 202, El Paso, TX 79901 or by calling 915-212-0258. Downloading the WTEP Regional Transportation Coordination Plan may be done by visiting the website: www.regionalserviceplanning.org/texas_regions/coordination_plans
2.0 Roles and Responsibilities of EPMPO

EPMPO is the Designated Recipient for 5310 funds allocated to the El Paso urbanized area. EPMPO’s role includes administering, managing, programming these funds, selection, and overseeing the implementation of the projects. Other EPMPO responsibilities as the Designated Recipient of funds from the 5310 program are relevant to the Coordination Plan and are briefly described below.

2.1 Coordinated Plan

Coordination with stakeholders is heavily emphasized in the Regional Coordinated Transportation Plan. This plan lays out various recommended approaches for maximizing the potential benefits that can be derived through the coordination of services.

The EPMPO also emphasizes the coordination of services among the region’s stakeholders and eligible sub-recipients of funding from the 5310 programs. Accordingly, applicants must describe their project level coordination arrangements prior to being considered for grant funding.

EPMPO also encourages the efforts of the region’s stakeholders to streamline and expand the eligibility of projects and services that could be funded by the 5310 programs.

Although, EPMPO is not directly responsible for developing the Regional Coordinated Transportation Plan, EPMPO is responsible for ensuring that the plan from which a selected project was included was developed in compliance with the statutory requirements. The Far West Texas/El Paso Regional Transportation Coordination Committee (WTEP) is the region’s responsible group to develop and coordinate the region’s coordinated transportation plan. This plan is available for downloading through the website: www.regionalserviceplanning.org/texas_regions/coordination_plans
3.0 Eligible Sub-recipients

Under the federal guidelines, the following entities are eligible to apply for 5310 funding:

- Private nonprofit organization
- Public and private transportation providers
- Tribal governments
- State or local governmental authority that:
  - is approved by a state to coordinate services for seniors and individuals with disabilities; or
  - certifies that there are no nonprofit organizations readily available in the area to provide services

To be eligible for funding from the 5310 programs, proposed projects must be located within or a destination within the El Paso urbanized area. El Paso's urbanized area is indicated in the map in Appendix 12-B and is related to the 2010 US Census demographic results.

Additional information regarding eligible sub-recipients can be found on FTA Circular 9070.1G, Chapter II, Sections 5 - 7.
4.0 Funding Eligibility

Section 5310 funds are available for capital and operating expenses to support the provision of transportation services that meet the specific needs of seniors and individuals with disabilities. All projects must either be situated in the El Paso Region’s Urbanized Areas or may also originate in a rural area but must have the final destination be situated in an urbanized area within the El Paso region to qualify for EPMPO Section 5310 Urbanized Area funds. Please see Appendix I2-B for the El Paso Region’s Urbanized Area Map or visit http://www2.census.gov/geo/maps/dc10map/UAUC_RefMap/ua/ua27253_el_paso_tx--nm/DC10UA27253_000.pdf.

Capital

Fifty-five (55) percent of funds shall be available for capital projects planned, designed, and carried out to meet the needs of seniors and people with disabilities. 55 percent is a floor, not a ceiling; more than 55 percent of apportionments can be used for these types of projects.

Eligible projects for the required 55 percent of capital projects include the capital cost of contracting for the provision of transit services for seniors and individuals with disabilities and other specialized shared-ride transportation services. The purchase of rolling stock for or the acquisition of the Americans with Disabilities Act (ADA) complementary paratransit service are eligible capital expenses that may also qualify under the 5310 Program as public transportation capital projects planned, designed, and carried out to meet the specific needs of seniors and individuals with disabilities when fixed-route public transportation is insufficient, unavailable or inappropriate, provided the projects are carried out by eligible recipients.

Operating

Forty-five (45) percent of 5310 funds may be used for operating expenses that provide transportation services that exceed the requirements of the ADA or improve access to fixed route services and decrease reliance by individuals with disabilities on ADA complementary transit service.

Administration

Through the approval of the Unified Planning Work Program (UPWP) by the EPMPO Transportation Policy Board (TPB), up to ten (10) percent of the total obligated funds for the fiscal year may be committed for administration of the 5310 grant program to the EPMPO. Any remaining portion, if any, of the ten percent may also be awarded to sub-recipients for administration of a 5310 program that is funded through 5310 funds.

Further information regarding eligible activities can be found on FTA Circular 9070.1G, Chapter III, Sections 13. – 15.

4.1 Funding for Rural Originating Programs

Reductions in federal funds to the rural areas within the state of Texas have prompted the EPMPO to consider offering the opportunity for other rural areas outside of El Paso County to submit proposals that originate in the rural areas of west Texas and whose destinations lie in the urbanized areas of the El Paso Region. Consideration for these proposals will only be taken after the proposals submitted for funding originating and providing mobility for the needs of the urbanized area are met per fiscal year. If a surplus of funding is available after urbanized needs are met, programs originating in the EPMPO Study Area’s rural areas will be considered primarily, after which, those that originate in rural areas outside of the EPMPO Study Area but are destined for the EPMPO urbanized area will then be considered. Rural areas outside of the Study Area that would be considered for funding must be located within the WTEP Regional County Area, or in the counties of Jeff Davis, Culberson, Hudspeth, Presidio, and Brewster. The primary decision on the availability of funds for this endeavor will be decided by the ad-hoc committee designated to perform the initial review of proposals for the EPMPO with the final decision to be made by the EPMPO Transportation Policy Board (TPB). A copy of the EPMPO Study Area map is available in Appendix I2-C.
5.0 Local Funding Requirements

5310 funds are eligible to support up to eighty (80) percent of the cost of capital projects and up to fifty (50) percent of the net operating costs.

The local share may be provided from an undistributed cash surplus, a replacement or depreciation cash fund or reserve, a service agreement with a State or local service agency, or new capital. Some examples of these sources of local match include: State or local appropriations; dedicated tax revenues; private donations; revenue from service contracts; toll revenue credits; transportation development credits (TDC); and net income generated from advertising and concessions. Non-cash share such as donations, volunteered services, or in-kind contributions is eligible to be counted toward the local match as long as the value of each is documented and supported, represents a capital cost which would otherwise be eligible under the program, and is included in the net project costs in the project budget.

Income from contracts to provide human service transportation may be used either to reduce the net project cost (treated as revenue) or to provide local match for Section 5310 operating assistance. No FTA program funds may be used as a source of local match for other FTA programs, even when used to contract for service.

All sources of local funding must be identified in the initial 5310 grant application.

The use and certification of toll revenue credits is the sole responsibility of the sub-recipient and certification documentation must be provided to be included in the FTA grant application.

Awarded sub-recipients will be required to fill out and submit to EPMPO staff a Project Request Form for programming the awarded 5310 funds into the EPMPO TIP. A sample of the form is available in Appendix 12-E and a sample of how the program will be documented in the TIP is in Appendix 12-F. Selected projects will also be incorporated into the EPMPO metropolitan transportation plan through amendment and formally reviewed by the TPB.

Further information regarding federal/local matching requirements can be found on FTA Circular 9070.1G, Chapter III, Section 16.

5.1 Transportation Development Credits (TDCs)

Awarded sub-recipients will be allowed to submit TDCs as a source for their local match on a proposal and must follow the TxDOT percentage match that is currently available at the time the proposal is submitted. TDC’s can only be requested for capital costs and may not be requested for operating costs. Percentages may vary for different categories (i.e. Capital matching may be at an 85%/15% standard with the TDC covering 15% of the total cost of the purchase of the vehicle(s)). EPMPO will submit the TDC request on behalf of the sub-recipient to TxDOT after the awards have been approved by the TPB. Sub-recipients must, however, be prepared to cover the required match with local match funds if the TDCs are not approved by TxDOT and the Texas Transportation Commission.
6.0 Funding Distribution and Project Selection Criteria

6.1 Application Cycle

MAP-21 The FAST (Fixing America’s Surface Transportation) Act requires that projects and programs to be implemented with funding from the 5310 program to be the outcome of a selection process that is fair and equitable. The FTA provides some flexibility with the process itself. The selection process may be held annually or at intervals up to three years, as determined by EPMPD and based on local needs. EPMPD will select projects as needed to fund eligible projects and programs and to avoid the lapsing of any funds that are not obligated in a timely manner.

5310 funds need to be obligated within the next two federal fiscal years following the fiscal year in which the funds were appropriated by Congress. In this regard, the federal fiscal year starts on October 1 and ends on September 30 of the following year. Any 5310 funds remaining from prior fiscal years and which have not lapsed will be combined with funds from the fiscal year in which the selection will take place and those funds expected to be made available within the following fiscal year. Accordingly, 5310 funds from up to three consecutive fiscal years could be made available and EPMPD will select projects and programs at intervals not to exceed this time frame. This approach will allow for the development of more viable and longer-term projects, reduce the administrative cost of the programs, and allow for other efficiencies.

EPMPD intends to authorize project expenses annually, contingent upon the levels of federal appropriations expected to be made available by Congress each fiscal year. The awarding and programming of prior 5310 program grant funds will be prioritized for obligation in the most current process to avoid lapsing. Future selections will be contingent on the availability of funds and approval of new legislation by Congress.

6.2 Application Evaluation and Scoring

EPMPD is responsible for the selection of projects, and may, but is not required to, include a competitive selection process. In any case, EPMPD will select projects on a fair and equitable basis. If EPMPD decides to conduct a competitive solicitation for projects, EPMPD may conduct the solicitation or arrange for an alternative to conduct the solicitation, such as the City of El Paso, El Paso County, or Sun Metro (MV Transportation).

6.3 Equity of Distribution

The EPMPD has the City of El Paso as its fiscal agent and must abide by the procurement processes, rules, and guidelines regarding grant processes. The City of El Paso’s Procurement Process is available at the EPMPD website at www.elpasampo.org. Beyond the broad outreach and consultation process undertaken during the development of the Coordinated Plan, the process for selecting projects will be widely publicized and disseminated directly to the agencies providing or needing specialized transportation services in the EPMPD urbanized area. The information will also be disseminated through the various agency meetings.

Information relevant to the selection process and application guidelines and forms, will be made available at EPMPD’s website at http://www.elpasampo.org/.

6.4 Project Approval and Award

Proposals may be selected based on but not limited to project mobility, effectiveness and benefit to urbanized area, program reach, and population served. Project proposals will be evaluated whether goals, objectives, and/or strategies demonstrated in the Regional Coordinated Transportation Plan are identified or addressed in the proposal and whether proposals include one or
more CMP strategies/objectives. After this review, EPMPO staff will forward the qualified submittals to an ad-hoc committee formed by the EPMPO Transportation Project Advisory Committee (TPAC), who will then provide recommendation for awards to the TPAC after reviewing the submittals. After considering the ad-hoc committee’s recommendation, the TPAC will then decide on its own recommendations to deliver to the EPMPO Transportation Policy Board (TPB) for approval.

TPB approved project proposals will be included in the EPMPO’s MTP and TIP and forwarded for inclusion in the Statewide TIP. The final step would be to submit the grant application(s) to the FTA for approval.

6.5 Timeline

Award notifications for the 5310 program will be transmitted to those agencies selected. Those agencies that were not recommended for funding will be sent letters to inform them of the results of the evaluation process. Sub-recipients recommended for funding will be sent an award notification letter. A Project Grant Agreement (PGA) between EPMPO and the sub-recipient will be prepared for execution. The PGA will indicate the date of the grant approval by the FTA and the effective date for project implementation.
5310 Project Selection Process

Development of Proposal/Program

Regional Coordinated Transportation Plan (proposal must respond to a need or gap)

EPMPO CMP (proposal must answer strategy or objective)

Proposal submitted to EPMPO after Regional Plan and CMP verification

TPAC Reviews & Provides Recommendation for TPB (PUBLIC FORUM)

TPAC Ad Hoc Committee Review & Recommendation

EPMPO MTP (long range plan; min. 20 years)

EPMPO TIP (short range plan; min. 4 years)

TPB Reviews Recommendations and Finalizes Approval of Award (PUBLIC FORUM)

Program of Projects (POP) & FTA Grant Application

TXDOT STIP (short range plan; min. 4 years)
Overall, it may take up to 12 months from the announcement date of the Request of Proposals to the execution of the PGA. This would depend on funding availability, the number of applications received, and the timeliness of selection process. The following is a tentative schedule using a competitive solicitation:

- **Solicitation for Proposals**: posting information to the EPMPO website and in accordance with the EPMPO Public Participation Plan (PPP); and this document may be reviewed at the EPMPO offices or downloaded from the EPMPO website, [www.elpasompo.org](http://www.elpasompo.org), or a hard copy may be requested from the EPMPO offices. It is the responsibility of eligible applicants to keep track of the information posted on EPMPO’s website and to provide their contact information to EPMPO.

- **Proposals Due**: due dates for proposals to be due will be posted with the Request for Proposals.

- **Evaluation of Applications**: the EPMPO may contact the applicant to inquire about the contents of the proposal and may request additional information or clarification. The applicant may also be required to provide an oral presentation of its proposal to the TPAC Ad-hoc Committee, the TPAC, and the TPB.

- **Award Notification**: a letter will be sent to successful applicants with information on the amount and source of the federal award. It will also include a request to confirm, in writing, the acceptance of the award and the availability and source of the local match, if not already provided with the application.

- **FTA Grant Application and Approval**: EPMPO staff will prepare and submit the grant application to the FTA for approval. Due to the certifications needed, including those from the United States Department of Labor, it may take up to two months for FTA’s final approval.

- **Project Grant Agreement**: the time required for execution of the PGA between the sub-recipient of funds from the 5310 program and the EPMPO will depend on the availability of supporting documentation from the sub-recipient (such as clear scope of work, timeline for project implementation, project item line budget and cash flow) and its readiness to accept its terms and conditions.

- **Effective Date of Reimbursable Activities**: the PGA specifies the effective date of its terms and conditions, including the period of reimbursable activities. In this regard, the EPMPO will reimburse the sub-recipient for any eligible expenditure incurred (after deducting the required local match) since the effective date of the PGA. Any expenditure incurred by the sub-recipient prior to the execution of the PGA with EPMPO is the sub-recipient’s responsibility.

The EPMPO is not committed to reimburse any expenditure if the PGA between the agencies is ultimately not executed, the project is cancelled, the federal funding is not available, or the FTA does not approve the grant application, among other possible scenarios.

**6.6 Sub-recipients Monitoring**

EPMPO may coordinate a sub-recipient orientation workshop after the awarding the fund, if necessary, to provide technical assistance on the process that would need to be followed and the federal requirements that would have to be met to receive the federal funds. EPMPO will schedule regular meetings with the sub-recipients to discuss issues or concerns regarding their projects and to provide assistance during implementation to ensure projects are consistent with the funding agreement. Sub-recipients will also be required to provide quarterly progress reports and an annual report during the period in which they invoice for eligible activities until grant close-out. In this regard, sub-recipients need to keep track of the performance measures identified for their projects in the PGA. Sub-recipients may also be required to present a program status report/presentation to the EPMPO TPB if so requested by the Board chairperson.
Sub-recipients would also need to provide supporting documentation when invoicing EPMPO for expenses incurred. Sub-recipients will not be paid in advance of costs incurred. Instead, funds from the 5310 programs will be paid to the sub-recipient on a reimbursement basis only. EPMPO will monitor closely all activities by the sub-recipient and take corrective actions to resolve any noncompliance issues, including informing the sub-recipients if they are at risk of losing any of the funding that was awarded. The sub-recipients need also to comply with Title VI and the auditing requirements specified in the PGA.

**SUB-RECIPIENT RESPONSIBILITIES**

- **Vehicles and related equipment** - Subrecipients vehicles must be inspected by EPMPO staff prior to being put into service and subrecipients must maintain an inventory listing of all vehicles and equipment purchased with 5310 funds.
- **Insurance** - Subrecipients must ensure the vehicle coverage complies with requirements imposed by State and local laws, regulation, and ordinances, except as the Federal Government determines otherwise in writing.
- **Ownership** - Subrecipients will maintain record of vehicle registration and ownership and notify EPMPO of any changes.
- **Vehicle use** - Subrecipients are allowed to use vehicles only for the intended purpose under the original agreement. Incidental use is allowed as long as it does not interfere with passenger transportation service. Priority service is given to the intended program clients and may be available to the general public if capacity allows.
- **Disposal of vehicles and equipment** - Vehicles must meet a useful life requirement before they can be disposed. Subrecipients must notify the EPMPO of anticipated disposition or action of their 5310 vehicles and equipment.
- **Changes in vehicle status or condition** - Subrecipients must notify the EPMPO of any action or change in vehicle condition so that impact to transportation service provided may be evaluated.
- **Preventive maintenance program** - Subrecipients must keep the 5310 funded vehicles and equipment in good operating order and participate in a preventative maintenance program. At a minimum, vehicles will be maintained in accordance with the manufacturer’s suggested preventive maintenance schedule. Out of order equipment must be repaired promptly. Subrecipients equipment and vehicles are subject to FTA safety inspections by EPMPO staff.
- **Procurement** - Subrecipients may utilize the procurement process of the City of El Paso, TXMAS, or agency procurement process that complies with FTA requirements for vehicles, supplies, and equipment. Subrecipients must follow the procurement procedures set forth in the most recent edition of FTA Circular 4220.1.
- **Safety** - Subrecipients will comply with the Federal Motor Carrier Safety Standards (FMCSS), State and local requirements.
- **Driver licensing** - Subrecipients are responsible for proper state licensing for its drivers assigned to 5310 vehicles.
- **Driver and management training** - Subrecipients will comply with the Federal Motor Carrier Safety Administration (FMCSA), State and local requirements.
- **Accident/incident reporting** - Subrecipients must notify the EPMPO of any accident/incident to 5310 vehicles so that impact to transportation service provided may be evaluated.
- **Civil rights** - Subrecipients are responsible for compliance as outlined in the EPMPO Title VI Program.
- **Subcontractor requirement** - Subrecipients must ensure that subcontractors comply with FTA and federal requirements.
- **Financial management** - EPMPO utilizes the City of El Paso’s PeopleSoft accounting software to manage the financial records for the processing of program funds and subrecipients are required to submit information in a timely manner and according to financial system requirements.
- **Record keeping** - Subrecipients must retain maintain all financial and programmatic records, supporting documents, statistical records, and other records of each contractor/subcontractor.
- **Audits** - Subrecipients that expend $750,000 or more in a year in federal assistance from all sources must have a single audit conducted. Closeout: Confirmation that activities are complete. A final milestone progress report indicating the actual completion date of each.
- **Monitoring** - Subrecipient is responsible for monitoring each activity under the Award to ensure activities are carried out in accordance with the Award. As part of the grant agreement, the subrecipients shall permit EPMPO, FTA or any of their authorized representative, full access to any records and supporting documents relevant to the program. EPMPO reserves the right to inspect all project equipment and property and shall conduct periodic desk reviews and/or on-site reviews of the subrecipients as part of its monitoring efforts.
- Additional information regarding Subrecipient responsibilities can be found in FTA Circulars 5010.1E and 9070.1G.
6.7 Procurement & Reimbursement Process Summary

1. Sub-recipient must request approval from the EPMPO prior to purchase of bus. EPMPO will review the sub-recipient’s procurement process, if applicable, for compliance. EPMPO would then concur with the sub-recipient to procure bus.

2. The sub-recipient is responsible to develop a narrative on the procurement process of any capital purchase and/or, if applicable, operational purchases, and submit it to EPMPO when requesting reimbursement for any purchases.

3. Once the vehicle is inspected and all requirements are met, it is the responsibility of the EPMPO to send a letter or e-mail, to the sub-recipient indicating that the vehicle was inspected and that the sub-recipient can utilize the vehicle. Once the sub-recipient is in agreement to those terms, then they must submit a letter of acceptance to the EPMPO.

4. Sub-recipient must submit the following to the EPMPO to receive reimbursement:
   a. Procurement narrative
   b. Invoice addressed from the sub-recipient
   c. Original invoice from the distributing company or retailer, whichever may be applicable
   d. Insurance policy and card
   e. Letter of acceptance
   f. Consolidated Certification form
   g. EPMPO may request additional documentation, as needed.

5. The sub-recipient will be responsible in developing and submitting the following documents:
   a. Vehicle Damage Report Form
   b. Pre & Post Inspection Checklist
   c. Maintenance Policies
   d. Preventive Maintenance Plan
   e. Procedures for Securing Wheelchairs

6. It will also be the responsibility of the sub-recipient to complete quarterly reports to the MPO that will address the following:
   a. Actual Vehicle Revenue Hours
   b. Actual Vehicle Revenue Miles
   c. Passenger Trips
   d. Number of Revenue Vehicles
   e. Total Revenues
   f. Fare Revenues if any
   g. Other Local Revenues
   h. Total Expenses (Operating & Capital)
i. Any other pertinent information that may be requested from the EPMPO that would also accompany any requests for reimbursement for other capital items, administration, and/or operations.

6.8 Appeals Process

Only an entity that has actually submitted a proposal may appeal an award decision.

Failure to follow the requirements of the Appeals Process established by the EPMPO, in accordance with the City of El Paso’s Protest Procedures for bids, shall constitute a waiver of all protest rights.

Protest must be made after the TPB agenda has been posted and by 5 p.m. the day before the TPB meeting in which the award will be considered. The appealing entity must write a letter to the Executive Director using the phrase “5310 Appeal” to the address listed below. The appeal must be sent by certified or registered mail or delivered in person. Note: the recommendation for award is posted on the EPMPO website at least 72 hours before each Board meeting.

The written protest should include 1) the title of the proposed project/program and should clearly state, with particularity, the relevant facts believed to constitute an error in the award recommendation, or desired remedy; 2) a specific identification of the statutory or regulatory provision that the Appealing Entity alleges has been violated and the provisions entitling the Appealing Entity to relief; 3) a specific factual description, with particularity, of each action by the EPMPO that the Appealing Entity alleges to be a violation of the statutory or regulatory provision that the Appealing Entity has identified pursuant to item (2) of this paragraph (mere disagreement with the decisions of EPMPO staff does not constitute grounds for appeal). If there is no disputed issue of the material fact, the Appeal must indicate this as well.

Only the information provided within the appeal period will be considered in making a recommendation to the Board.

All appeals must be sent to:

El Paso Metropolitan Planning Organization
Attn: Executive Director
211 N. Florence Street
Suite 202
El Paso, TX 79901-1666
7.0 Administration of 5310 Programs

The following summarizes the responsibilities of EPMPO as the designated recipient.

- Assists sub-recipients or potential sub-recipients with technical support to: i) establish project eligibility; ii) manage and administer projects; iii) understand grantee (EPMPO) and federal compliance policies, including procurement guidelines and required matching funds; and iv) understand the conditions on how federal grant funds can be spent.

- One of the primary means of assistance will be by co-sponsoring and/or hosting proposal seminars with stakeholders during the Request for Proposals cycle. These seminars will assist in informing potential applicants of the process and details involved with the grant application and administration of the award. EPMPO has also developed a program to host, if necessary, a grantee introduction seminar for all new sub-recipients after each selection process. The meeting will allow EPMPO to meet with all of the new sub-recipients to discuss general and specific performance goals to be achieved, their reporting and the administrative responsibilities, and EPMPO’s standardized invoicing practices.

- In order to clarify the goals of each project and assist the sub-recipients in the development of good progress reporting and accounting practices, EPMPO will meet individually with each of the sub-recipients before the beginning of grant expenditures.

- Ensures that sub-recipients adhere to the FTA Master Agreement, EPMPO’s PGA, and other federal and state requirements, as applicable, to ensure federal funds are used according to the established contractual requirements. This activity will be accomplished with site visits and review of sub-recipients’ records.

- Seeks from the sub-recipients an annual signed certification that affirms sub-recipient compliance with the standard terms and conditions governing the administration of projects funded with federal dollars awarded by the FTA through EPMPO, as described on the PGA or the FTA Master Agreement. This information is provided to the auditors as part of EPMPO’s compliance monitoring effort.

- Provides the Program of Projects funded with the 5310 program for inclusion in the Transportation Improvement Program through a Project Request Form.

- Prepares a summary of the funds available for distribution upon approval of the federal budget for the federal fiscal year that starts October 1 and corresponding federal transportation appropriations sometime thereafter and their publication in the Federal Register.

- Initiates the development of the grant applications for the FTA, and upon FTA’s award, initiates the funding agreements with the sub-recipients.

- Assures sub-recipients development performance measures for each 5310 funded project to monitor and report the benefits of the federal investment.

- EPMPO will maintain good working relationships and coordination with stakeholders, the federal, state, regional, and local agencies regarding human services transportation projects and programs funded with the 5310 funds.

- Analyzes federal, state, and local legislation and policies relevant to the 5310 program.

- Makes recommendations to the EPMPO Board for improvements in managing and administering the 5310 programs.
- Serves as the point of contact for any activities related to the 5310 urbanized area programs, such as coordinating the reviews and audits performed by the FTA.

- Other Provisions:

  **Environmental Protection**

  If EPMPO allows a subrecipient to use Section 5310 funding for purposes other than vehicle purchases (for example, new construction or expansion of transit terminals, storage and maintenance garages, office facilities, and parking facilities), EPMPO will screen potential projects when they are first identified to make an initial determination as to which projects clearly meet the FHWA/FTA criteria for CEs and which projects may require additional documentation.

  EPMPO will coordinate with the FTA regional office early in project development so that any necessary environmental analysis and review will not delay implementation. EPMPO will discuss with the FTA regional office any project involving new construction of a facility or substantial rehabilitation of an existing facility to determine the need for information supporting a CE and the applicability of any additional environmental requirements.

  **Buy America Provisions/Pre-Award and Post Delivery Reviews**

  **Traditional Program**

  EPMPO is responsible for ensuring bid specifications include all FTA procurement certifications. EPMPO is responsible for ensuring vendors meet all Buy America/Pre-Delivery audit provisions (as well as all FTA procurement certifications) prior to approval of vendor contracts.

  In accordance with federal regulations, EPMPO performs a federal post-delivery audit of vehicles to ensure vendor compliance with vehicle specifications, Buy America requirements, federal motor vehicle safety standards and bus testing.

  **Other Program**

  Other subrecipients must certify to EPMPO that it will conduct a pre-award and post-delivery audit of vehicles purchased with FTA funds.
Restrictions on Lobbying

EPMPO Section 5310 subrecipients awarded FTA assistance exceeding $100,000 will sign a certification so stating (restrictions on lobbying) and must disclose the expenditure of non-Federal funds for such purposes (49 CFR part 20). EPMPO will gather signed certification(s) at time of sub-recipient grant application to EPMPO.

Prohibition of Exclusive School Transportation

Through its sub-recipient compliance reviews, EPMPO ensures that subrecipients are not providing exclusive school transportation per Section 5323(f) of the Federal Transit Act.

Prohibited Charter Services

Through its sub-recipient compliance reviews, EPMPO ensures that subrecipients are not engaging in prohibited charter bus services.

Drug/Alcohol Testing

EPMPO Subrecipients that receive only Section 5310 will comply with the Federal Motor Carrier Safety Administration (FMCSA) rule for employees who hold Commercial Driver’s Licenses (49 CFR part 382). EPMPO Section 5310 subrecipients that also receive funding under one of the covered FTA programs (Sections 5307, 5309 and 5311) will include any employees funded under Section 5310 projects in their testing program.
8.0 Title VI, Section 504, and ADA Compliance

EPMPO requires sub-recipients to document that they distribute FTA funds without regard to race, color, national origin, and disability or discrimination against disadvantaged business enterprises, among applicable civil rights requirements. **Not all applicable civil rights requirements are discussed in the PMP.**

EPMPO complies with FTA’s Title VI requirements in the following manner: i) provision of an annual Title VI certification and assurance; ii) documentation of Title VI complaint procedures; iii) record keeping of all Title VI investigations, complaints, and lawsuits; iv) provision of meaning access to persons with Limited English Proficiency; v) notification to beneficiaries of protection under Title VI; and vi) a requirement that each sub-recipient demonstrates that it has adopted a Title VI program or becomes part of City of El Paso’s list of qualified bidders/applicants for solicitations for proposals; automatically submitting itself to the requirements for the City of El Paso’s Title VI assurances for sub-contractors/sub-recipients. Within each of these broad categories are specific requirements for survey and other data collection, analysis, and information distribution that cover transportation programs, construction programs, and transit service planning, operations, and service/fare changes.

EPMPO’s promotion, administration, and distribution of information and funding relevant to the 5310 programs is consistent with EPMPO’s Title VI Policy, which is made part of this document by reference (Appendix I2-H). This policy is posted in the EPMPO Title VI Plan on the EPMPO’s web site at www.elpasompo.org/other/ppp/.

In order to fulfill Section 504 obligations, EPMPO plans on working closely with its sub-recipients to ensure the goals of their federal 5310 grants are being met (see Appendix I2-G). In order to track this progress, EPMPO will review each submitted invoice and insure that all required backup material is attached and correct in order to validate funds spent, work to resolve any potential ineligibility issues with any sub-recipient and obtain the return of any funds paid out that have been found to have been ineligible. In addition, the EPMPO will review all quarterly and annual reports to ensure consistency with the terms of the federal grant and the PGAs. Finally, EPMPO will make annual site visits to each sub-recipient to ensure purchased items, service, and/or training funded by the federal grant are in full service, being maintained as per manufacturer’s recommendations, and are being used to meet the performance measures set in the PGA and in federal guidelines.

EPMPO will evaluate all projects receiving grant funds for compliance with all relevant ADA laws, regulations and policies and will work with sub-recipients to provide technical assistance.
9.0 Management of 5310 Programs

The following describes the activities to be performed by EPMPO to ensure federal funds are not lost (lapsed) to the region. The activities described below are part of the oversight and project management activities necessary to ensure that projects funded with 5310 funds are implemented in accordance to the FTA program guidelines and funding agreements.

- Monitor expenses and reimbursements to sub-recipients to ensure compliance with the federal grant award and the PGA.
- Work with City of El Paso’s Finance Department to include project-related information in City of El Paso’s financial system, such as project identification (CFDA No) number, grant number, amount, and information on local contribution and funding sources, if any. This information is needed for accounting and monitoring of project funding and expenses.
- Review for accuracy and eligibility sub-recipient invoices, ensure that the required documentation is on file and payments are made as approved.
- Compile and distribute FTA procurement guidelines to all sub-recipients. Work with all grantees to analyze, evaluate, and answer any particular procurement questions they may have relevant to their project(s).
- Prepare quarterly status progress reports and financial reports and report to FTA’s Transit Award Management System (TrAMS) prior to the deadlines.
- Monitor, through yearly site visits, project implementation activities and ensure compliance with federal and contractual requirements.
- Analyze project activities and determine if any changes to the budget, scope, or schedule are required. Accordingly, initiate and prepare any needed grant and PGA amendments prior to requesting FTA’s approval to grant revisions.
- Analyze monthly or quarterly project expenses and reimbursements from the FTA and reconcile with FTA’s TrAMS system for accuracy.
- Prepare and file grant budget revisions.
- Evaluate, prepare and file grant and PGA closeout documents.
- Work with sub-recipients to set performance measures through the life of the project to track its effectiveness and progress, as described in Section 10.0 and in the PGA.

As part of the oversight and project management activities, each project will be assigned a project number that will be linked to the FTA grant funding the project.
10.0 Performance Measures

Consistent with federal guidelines and as incorporated in the PGA, sub-recipients will be asked to show (as applicable) all increased activity due to the grant funded project, such as:

- Actual annual number of rides (as measured by one-way trips) as a result of the implementation of 5310 program.
- Annual increases or enhancements related to geographic coverage, service quality and/or service times that impact the availability of transportation services for individuals with disabilities.

These measurements are indicative of any co-relation to performance measures numbers 3 and 4 listed in the EPMPO CMP (EPMPO 2013 CMP, pages 42-43).

The sub-recipients will also work jointly with EPMPO to establish other performance indicators that are more specific to their projects to measure relevant outputs, service levels, and outcomes. Sub-recipients will be required to report these performance measures on a quarterly basis and on an annual basis and as required by the EPMPO and FTA.
11.0 Program Management Plan Updates

As stated earlier, the PMP is a living document. Throughout the federal legislation, there are, at times, changes to federal funding programs and the amount of available funding and criteria involved with said programs. The PMP will be updated regularly to incorporate any expansions and enhancements of the 5310 programs, as well as any revisions to the programs’ management, requirements, or guidelines. It will also be updated per the request of the FTA or based on significant input submitted from the EPMPD Board, sub-recipients, eligible applicants, and the general public. All significant changes to the PMP will follow the process for amendments to EPMPD planning documents as described in the EPMPD PPP and will require EPMPD Board adoption. Thereafter, the document will be forwarded to FTA for approval. At minimum, the PMP will be updated every three to four years.
APPENDIX
12-A: Acronyms

ADA – Americans with Disabilities Act
CMP – Congestion Management Process
CMPC – Congestion Management Process Committee
EC – Executive Committee
EPMPO – El Paso Metropolitan Planning Organization
FAST Act - Fixing America’s Surface Transportation

APPENDIX
12-C: EPMPO Study Area Map
APPENDIX

12-D: EPMPO Transportation Policy Board and Committees

EPMPO TPB Membership shall consist of the following but not by way of limitation:

Texas:

Town of Anthony
City of El Paso
Town of Clint
County of El Paso
Town of Horizon City
City of San Elizario
City of Socorro
Village of Vinton
Texas State Senator(s)
Texas State Representative(s)
El Paso International Airport
El Paso County Transit Agency or County-wide Mass Transit Authority
Sun Metro/Mass Transit Department
Texas Department of Transportation

New Mexico:

City of Anthony, N.M.
Doña Ana County
City of Sunland Park, NM
New Mexico State Representative(s)
New Mexico State Senator
New Mexico Dept. of Transportation

The City of El Paso’s representation on the Transportation Policy Board shall be equal to the number of incorporated Texas municipalities, cities, towns, or villages within the urbanized study area who have representation on the TPB.

The MPO will have six (6) standing committees:

- Executive Committee (EC)
- Congestion Management Process Committee (CMPC)
- Transportation Finance Committee (TFC)
- Suburban Mobility Committee (SMC)
- Transportation Project Advisory Committee (TPAC)
- Transit Coordination Committee (TCC)

YOUR RIGHTS UNDER SECTION 504 OF THE REHABILITATION ACT

What Is Section 504?

Section 504 of the Rehabilitation Act of 1973 is a national law that protects qualified individuals from discrimination based on their disability. The nondiscrimination requirements of the law apply to employers and organizations that receive financial assistance from any Federal department or agency, including the U.S. Department of Health and Human Services (DHHS). These organizations and employers include many hospitals, nursing homes, mental health centers and human service programs.

Section 504 forbids organizations and employers from excluding or denying individuals with disabilities an equal opportunity to receive program benefits and services. It defines the rights of individuals with disabilities to participate in, and have access to, program benefits and services.

Who Is Protected from Discrimination?

Section 504 protects qualified individuals with disabilities. Under this law, individuals with disabilities are defined as persons with a physical or mental impairment which substantially limits one or more major life activities. People who have a history of, or who are regarded as having a physical or mental impairment that substantially limits one or more major life activities, are also covered. Major life activities include caring for one’s self, walking, seeing, hearing, speaking, breathing, working, performing manual tasks, and learning. Some examples of impairments which may substantially limit major life activities, even with the help of medication or aids/devices, are: AIDS, alcoholism, blindness or visual impairment, cancer, deafness or hearing impairment, diabetes, drug addiction, heart disease, and mental illness.

In addition to meeting the above definition, for purposes of receiving services, education or training, qualified individuals with disabilities are persons who meet normal and essential eligibility requirements.

For purposes of employment, qualified individuals with disabilities are persons who, with reasonable accommodation, can perform the essential functions of the job for which they have applied or have been hired to perform. (Complaints alleging employment discrimination on the basis of disability against a single individual will be referred to the U. S. Equal Employment Opportunity Commission for processing.) Reasonable accommodation means an employer is required to take reasonable steps to accommodate your disability unless it would cause the employer undue hardship.
Prohibited Discriminatory Acts in Health Care and Human Services Settings

Section 504 prohibitions against discrimination apply to service availability, accessibility, delivery, employment, and the administrative activities and responsibilities of organizations receiving Federal financial assistance. A recipient of Federal financial assistance may not, on the basis of disability:

- Deny qualified individuals the opportunity to participate in or benefit from federally funded programs, services, or other benefits.
- Deny access to programs, services, benefits or opportunities to participate as a result of physical barriers.
- Deny employment opportunities, including hiring, promotion, training, and fringe benefits, for which they are otherwise entitled or qualified....

These and other prohibitions against discrimination based on disability can be found in the DHHS Section 504 regulation at 45 CFR Part 84.

For information on how to file a complaint of discrimination, or to obtain information of a civil rights nature, please contact us. OCR employees will make every effort to provide prompt service.
