### 2017 Baseline year - Project List

For the development of the 2017 Baseline year network, aerial imagery for year 2017 was used to conduct a thorough review of the network layer attributes and alignment issues. After the review, updates were made to accurately represent the roadways in 2017. In addition, a review of projects from previous MTPs was conducted to identify new roadways and/or facility improvements that were completed between January 2013 and December 2017. The list of projects is presented below. Please refer to network layer attribute: Project ID\_2017 for review of project coding for the 2017 Baseline year network.
