## EL PASO METROPOLITAN PLANNING ORGANIZATION METROPOLITAN TRANSPORTATION PLAN

## EXECUTIVE SUMMARY

Appendix C

Transportation Conformity Report for Amended Destino 2045 MTP

The El Paso Metropolitan Planning Organization's (MPO) Transportation Policy Board (TPB) adopted the Destino 2045 Metropolitan Transportation Plan (MTP) on May 18, 2018. In consultation with the U.S. Environmental Protection Agency (EPA), the Texas Commission on Environmental Quality (TCEQ), and the Texas Department of Transportation (TxDOT), the Destino 2045 MTP and the Destino 2019-2022 TIP were found to meet all the requirements for a joint FHWA/FTA conformity determination, under the Clean Air Act Amendments of 1990, on November 6, 2018.

On June 4, 2018, EPA designated Sunland Park, New Mexico as non-attainment in accordance with the 2015 8-hour ozone standard. As such, a conformity determination for the Sunland Park, NM non-attainment area was required by August 3, 2019. The El Paso MPO's TPB adopted a transportation conformity report for the Sunland Park, NM non-attainment area on January 25, 2019 and a joint FHWA/FTA conformity determination was approved on July 22, 2019.

A Metropolitan Transportation Plan (MTP) is a long range transportation plan for urbanized areas. The MTP development process is designed to coordinate local vision and needs with national performance measures and planning criteria. The Destino 2045 MTP provides for the long-term travel needs of the community in a balanced and financially responsible manner. Goals and Objectives provide the framework to guide decision-making about selecting and prioritizing projects to address the region's travel needs.

In the fall of 2019, the El Paso MPO identified a need to amend the Destino documents, which would require a new conformity determination. Loop 375 (Purple Heart) widening from US 62/180 Montana Ave. to Spur 601 would be delayed and not let on time, therefore, it would not be completed in the network year identified in the most recent conformity determination. This along with the development of the El Paso MPO's Regional Mobility Strategy (RMS) 2020 (originally known as the El Paso Mobility Plan v.2019), which identified several projects that would need to go through the conformity process for an amendment to the Destino 2045 MTP.

The El Paso MPO used Decision Lens software to support and enhance decision making and assist in project evaluation and prioritization. The RMS 2020 and the updated El Paso MPO's Congestion Management Process (CMP) were key inputs to developing multimodal priorities for inclusion in the Amended Destino 2045 MTP. Consensus from stakeholders to optimize funding was a key feature of this process.

There were no new highway projects developed for the Amended Destino 2045 MTP and the basic financial assumptions remain the same as the original Destino 2045 MTP, but several projects moved between network years. TxDOT moved 6 projects to outer years based on regional priorities. This freed up \$176M of funding for local government projects to be accelerated.

The timing for the new 2021-2024 STIP/TIP development in Texas coincides with the development of the Amended Destino 2045 MTP. Some projects requiring a conformity determination are included in the Destino 2021-2024 TIP, and will be approved contingent on a new conformity determination.

Fiscal constraint is a major component for these amendments. The Amended Destino 2045 MTP has approximately \$6B of multimodal projects and programs included in fiscal years (FY) 2019-2045. The El Paso MPO study areas stretches across the state line between Texas and New Mexico, including El Paso County in Texas, Southern Dona Ana County, and a portion of Otero County in New Mexico.

Facilitating the movement of people and goods throughout the region over this period of time presents numerous challenges from a financial standpoint. Projects and programs in the Texas portion of the El Paso MPO study area are approximately \$5B. Transit projects come to approximately \$983M. New Mexico highway projects total approximately \$60M.

OTERO
New Mexico
New Mex

A new Destino 2021-2024 TIP will cover a program horizon of four fiscally constrained years. The Destino 2021-2024 TIP is consistent with the Amended Destino 2045 MTP, and contains regionally significant projects to be funded with federal and non-federal funds. The Destino 2021-2024 TIP is fiscally constrained for transit projects and highway projects in the New Mexico and Texas portion of the El Paso MPO study area.

Federal funding categories that flow through TxDOT into the TIP/MTP are based on revenue forecasts in TxDOT's Unified Transportation Program (UTP). The UTP reflects the projects and programs that may be delivered in Texas over a 10-year period. See the section on Financial Planning Assumptions for the Amended Destino 2045 MTP below for more information. Also, the El Paso Mobility Plan v. 2019 lead to a reprioritization of projects and funding in the Amended Destino 2045 MTP. See the section on the El Paso Mobility Plan v.2019 below for more information.

Close coordination is ongoing with NMDOT on available funds to be used in New Mexico. For example, the current New Mexico fiscally constrained STIP is the FY 2020-2023. The EPMPO coordinates with NMDOT to include New Mexico projects in the TIP/STIP that do not lineup with the fiscal years of the Texas STIP, 2021-2024. The next New Mexico STIP cycle will develop the FY 2022-2025 fiscally constrained STIP, which will be approved in FY 2022. If there is a need to include FY 2025 to accommodate New Mexico projects, the EPMPO will add FY 2025 to the Destino 2021-2024 TIP. Please refer to the New Mexico Financial Summary tables in the Destino 2021-2024 TIP for more detailed financial information on New Mexico projects.

Transit projects are funded with FTA funds and local funds. Most of the transit funding is for Sun Metro projects, the mass transit provider in the region, but transit projects in the county of El Paso and Dona Ana county in New Mexico are also included.

#### Sections below are included on the following pages:

- Project Lists for the Amended Destino 2045 MTP
- Financial Summary Tables for the Amended Destino 2045 MTP
  - o Texas projects funded with FHWA, state and local funds
  - Sun Metro projects funded with FTA and local funds
  - New Mexico projects funded with FHWA, state and local funds
- Financial Planning Assumptions for the Amended Destino 2045 MTP
- El Paso Mobility Plan v.2019, approved by the TPB on December 13, 2019 (later named the Regional Mobility Strategy (RMS) 2020)
- Performance Based Planning and Programming (PBPP) Assumptions
- Technical Memorandum: (same as Appendix J of the Transportation Conformity Report)

#### Financial Planning Assumptions for the Amended Destino 2045 MTP

The Amended Destino 2045 MTP is a 27-year plan with approximately \$6B of multimodal projects and programs included in fiscal years (FY) 2019-2045. The EPMPO study area stretches across the state line between Texas and New Mexico, including El Paso County in Texas, Southern Dona Ana County, and a portion of Otero County in New Mexico. Facilitating the movement of people and goods throughout the region over this period of time presents numerous challenges from a financial standpoint. Projects and programs in the Texas portion of the EPMPO study area are approximate \$5B. Transit projects come to approximately \$983M. New Mexico projects total approximately \$60M.

There is a mix of FHWA, FTA, state (Texas and New Mexico) and local revenues used to cover associated project costs in the Amended Destino 2045 MTP. It should be noted that all federal funds herein have been calculated to include the required local match, usually 20%. The Amended Destino 2045 MTP includes total project cost, comprised of construction, Right-of-Way (ROW), and preliminary engineering costs. The first ten years of the Amended Destino 2045 MTP, FY 2019-2028, are fiscally constrained by funding category, followed by fiscal constraint in FY 2029 and 2030. Banding together multiple years was applied for financial constraint in the outer years of the plan from 2031-2040 and 2041-2045. The EPMPO coordinated with Texas Department of Transportation (TxDOT) and New Mexico Department of Transportation (NMDOT) to determine acceptable inflation rates for projects within their respective states. This resulted in compounded inflation rates of 4% in Texas, and 1.5% in New Mexico.

The EPMPO used TxDOT's 10-year funding program, the Unified Transportation Program (UTP) to develop the funding assumptions. The original Destino 2045 MTP used the funding assumptions from TxDOT's 2018 UTP, which allocated \$602,000,000 to the El Paso District. Since that time the Destino 2045 UTP incorporated the 2019 UTP financial assumptions, which allocated \$625,598,766 to the El Paso District, and now the Amended Destino 2045 MTP is using financial assumptions from the 2020 UTP, which allocated \$848,820,000 to the El Paso District and that includes \$193,500,000 of Category 12 for the Artcraft Rd. project from the New Mexico state line to I- 10 in Texas.

The EPMPO administers three FHWA funding categories, Congestion Mitigation and Air Quality (CMAQ), Surface Transportation Program in urbanized areas for metropolitan mobility projects and the Transportation Alternative Set-Aside (TASA), which incorporates safe routes to schools and the recreation trails program. As with the original Destino 2045 MTP, after incorporating the 10-years of UTP, the EPMPO developed the following assumptions for the Amended Destino 2045 MTP. CMAQ and STP-MM programs grow at 1.01% through the horizon year of 2045. Texas CMAQ revenue of \$281M in the Amended Destino 2045 MTP is down 19% from the original Destion 2045 MTP, and total STP-MM revenue of \$623M in the Amended Destino 2045 MTP is up 1.5% from the original Destion 2045 MTP The reduction of CMAQ funding can be attributed to the fact that San Antonio is now a nonattainment MPO in Texas and is eligible to receive CMAQ funding, which has impacted the funding distribution to the other Texas nonattainment MPOs." New Mexico CMAQ and STP-Large Urban revenue expectations were coordinated with NMDOT, and at the direction of NMDOT there was no growth rate applied to these programs in the Amended Destino 2045 MTP. The total New Mexico CMAQ revenue is \$47M in the Amended Destino 2045 MTP is up 24% from the original

Destion 2045 MTP and total STP-Large Urban revenue is \$27M in the Amended Destino 2045 MTP is up 23% from the original Destion 2045 MTP. The total Texas TASA program is pretty consistent between the original Destino 2045 MTP and the Amended Destino 2045 MTP, with a slight increase from \$38M to \$39M. NMDOT provides available TAP funds as they become available for planning and programming purposes. Federal funding administered by the EPMPO in the Amended Destino 2045 is in line with historical trends.

TxDOT's 2020 UTP was used to account for financial constraint of Texas highway projects and programs within the Amended Destino 2045 MTP from 2020-2029 (2019 funding assumptions came from the 2019 UTP) through traditional federal revenues from Categories 1-12. These funding categories continue throughout the Amended Destino 2045 MTP. Category 1 is for Preventative Maintenance and Rehabilitation, Category 6 is for Structure Replacement and Rehabilitation, and Category 8 is for Safety Projects. Local contributions (which is beyond required local match to federal funds) is captured under Category 3 for projects in the Texas portion of the EPMPO study area.

From FY 2021-2024, which is in line the Destino 2021-2024 TIP, approximately \$15M of CMAQ funding is being transferred from FHWA to FTA funding for Sun Metro transit projects. Sun Metro will continue to receive traditional FTA 5307 formula funds for programs such as capital maintenance, planning and ADA Para Transit for approximately \$509M, and for Transit Enhancement type projects covered by FTA 5339 funds for nearly \$100M, which includes approximately \$51M for buses and bus facilities. The FTA 5307 and 5339 funds are growing at a modest rate of just over 1% in the Amended Destino 2045 MTP. Three Sun Metro projects are programmed with the expectation of receiving FTA 5309 Very Small Starts funding. Historically, Sun Metro has received Very Small Starts funding when leveraged by local funding. Design and Construction for Streetcar Phase II - Service to from downtown to the Medical Center of the Americas (MCA), FY 2025, Design & Construction for Juarez & El Paso International Pedestrian Crossing, FY 2026, and Design and Construction for Transit Center for intercity and international transit, FY 2026, are all programmed at 50% Certificates of Obligation and 50% FTA 5309 Very Small Starts funding. The total project cost for the three projects is approximately \$332M.

The EPMPO is the designated recipient for the FTA 5310 program to meet the transportation needs of elderly persons and persons with disabilities where public mass transportation services are otherwise unavailable, insufficient or unequipped to handle their needs. Based on historical trends the EPMPO has estimated \$650,000 each year, 2019-2045, for a total of \$17,550,000 in the Amended Destino 2045 MTP.

Aside from the traditional funding categories, TxDOT proposed additional revenues assumptions for the original Destino 2045 MTP and are carried over to the Amended Destino 2045 MTP to achieve financial constraint, which includes but is not limited to the outer years of the plan, 2030-2045: \$217M Clear Lanes Initiative (funds to address Texas' most congested choke points). \$438M bonding revenue for Borderland Expressway (AKA Northeast Parkway) in 2029. \$180M of El Paso-District allocation of Rider 11B Border Funding between 2025-2031. \$669M of Category 2 (Transportation Management Area Corridors) from 2028-2045. \$50M in Toll Revenue, in 2031, generated from the first 10 years of operation of the Border West Expressway. \$900M combined between two Texas funding sources - Proposition 1 (which allocates money from the rainy day fund to state highway fund for construction, maintenance and rehabilitation) and Proposition 7 funds (which supplies funding to the

State Highway Fund from sales and use tax and state motor vehicle tax to build, maintain and restore non-tolled public roads) was distributed throughout the plan between 2025 and 2045.

NMDOT proposed federal and state revenues at approximately \$80M through a combination of STP-Large Urban, STP-Flex, National Highway Performance Program (NHPP), National Highway Performance-Freight (NHPP-F) and Border State Infrastructure (SBSI) funds for the Bridge Replacement at NM 404/IH-10, in 2021, Construction of NM 404 Super 2 from IH-10 to NM 213, in 2023, Widening of NM 404 from IH-10 to NM 213 and Widening of NM 213 from NM 404 to Texas state line, in 2029.

Local government agencies within the EPMPO study area, including, but not limited to the City of El Paso, Sun Metro, and the County of El Paso have projects programmed in the Amended Destino 2045 MTP. Approximately \$575M of local multimodal projects are included with funding from federal and local resources.

On December 6, 2017 the Transportation Project Advisory Committee (TPAC) recommended the Original Destino 2045 MTP Project List and Financial Summary to the Transportation Policy Board (TPB) for approval on December 15, 2017. Public involvement for the Original Destino 2045 MTP, Destino 2019-2022 TIP and Transportation Conformity Report was scheduled March 9, 2018 – April 9, 2018. The TPB approved the original Destino documents on May 18, 2018. On March 4, 2020 the Transportation Project Advisory Committee (TPAC) recommended the Amended Destino 2045 MTP Project List and Financial Summary to the Transportation Policy Board (TPB) for approval on March 27, 2020. Public involvement for the Amended Destino 2045 MTP, Destino 2021-2024 TIP and Transportation Conformity Report was scheduled March 29, 2020 – April 28, 2020. The TPB approved the final Amended Destino documents on May 22, 2020.

# El Paso Mobility Plan v.2019

Transportation Policy Board Meeting December 13, 2019

## Main Topics

- Why do we need a Strategic Plan?
- Regional Mobility Strategy (Phase 1)
- Decision Lens
  - Evaluation
  - Prioritization
- El Paso Mobility Plan v.2019
  - Projects
  - Target implementation process

### Regional Mobility Strategy (RMS)

#### RMS is

- A response to perceived lack of vision and <u>cooperative</u> leadership
- An assessment of the region's <u>multimodal</u> network
- A <u>collective vision</u> as determined by regional stakeholders

What is the purpose?	Why develop it?	How will it be used?
✓ Understand the needs for future mobility and land development	✓ Consider transportation and urban design challenges	✓ Deliver key information in developing multimodal mobility improvements
✓ Support regional mobility initiatives	✓ Include new partners with a stake in transportation planning and	✓ Identify opportunities for financing
✓ Provide priorities for future transportation development,	implementation	and funding a mobility vision
economics and policies	✓ Promote safe, livable and sustainable multimodal	✓ Inform process to develop implementation plans
✓ Provide a tool for decision makers	infrastructure system	

### RMS Approach

### Reviewed existing studies

- More than 15 planning studies
- Observed commonalities and differences

### Engaged regional stakeholders

- More than 20 listening sessions between Nov 2018 and Aug 2019
- Stakeholders numbered more than 70 individuals in Texas, New Mexico, and Chihuahua
- Listening sessions are ongoing more to come

## Analyzed regional transportation network, including;

- Mass transit
- Freight rail
- Bike and pedestrian
- International crossings

## **Draft Report**

DRAFT FINAL REPORT
NOVEMBER 2019

## **Listening Sessions:**

**Traffic Flow &** Connectivity

**Regional Growth & Economic Development** 

**Policies** 

Multimodal

Leadership

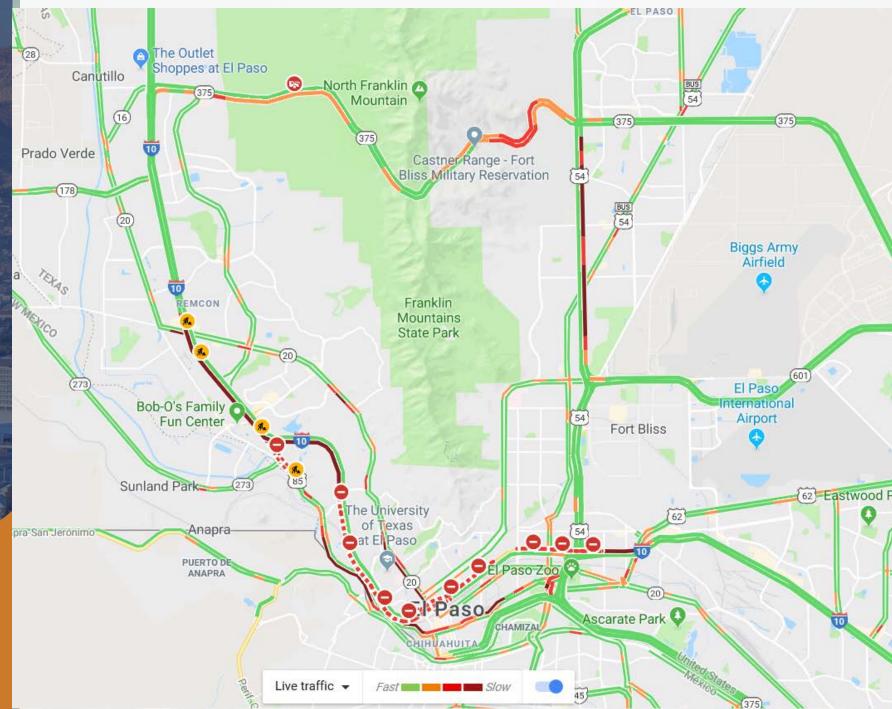

**Technology** 

**Funding** 

#### **Roadway Findings**

- LOS analysis supported that several major corridors within the El Paso region are experiencing high levels of congestion.
- RMS recognizes that many short, mid and long-term efforts are underway.

#### **Transit Findings**

Stakeholders stated that a seamless regional transit system is important. It will help:

- Enhance the overall attractiveness of the transit system; and
- Contribute to the overall success of the area

## Bicycle & Pedestrian Findings

- Connectivity
- Unified Plan
- Funding
- Rider Accommodations

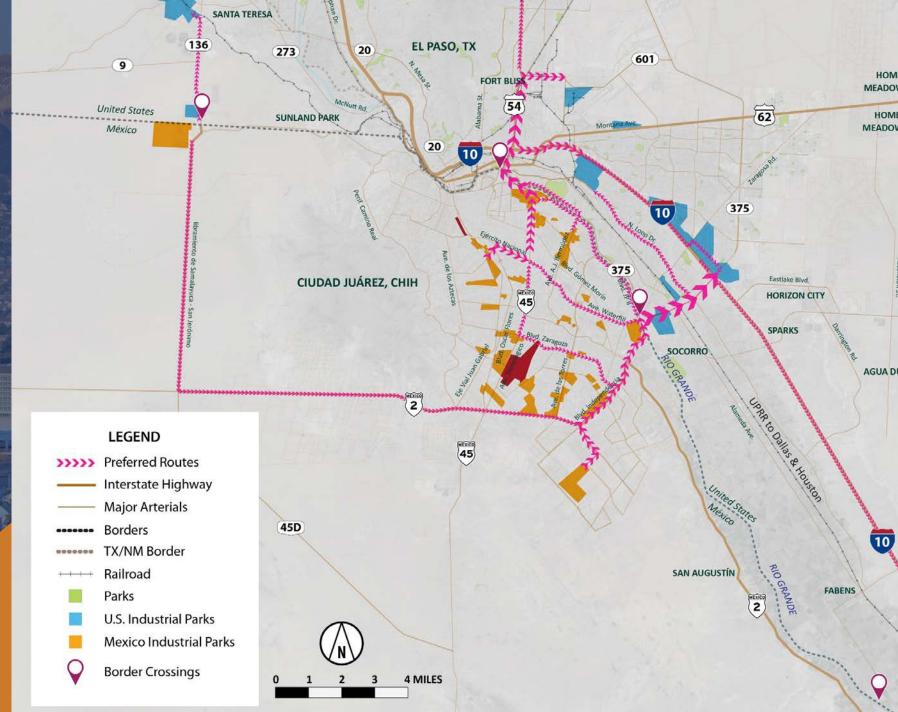

## International Crossings Findings

- POEs in the El Paso MPO region are among the top 5 busiest in the U.S.
- BOTA and Ysleta-Zaragoza are the busiest El Paso crossings
- RMS is coordinating with BTMP and working to fully understand cross border movements

#### Summary

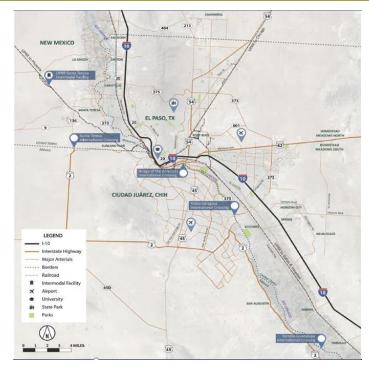

- RMS listened to you and will continue to reach out to more stakeholders and conduct follow-ups with the initial 20+ stakeholders.
- RMS evaluated current conditions across various travel modes.

## Key features

- Multimodal
  - Highway
  - Transit
  - Bike/Pedestrian
  - Freight
- Multi-jurisdictional
  - MPO region
  - Cross-border impact

- Traditional & innovative funding and financing
  - Federal, State, local, P3
- Strongest regional priorities
- Consensus from all stakeholders
- Implementation target: 5 − 7 years

## Main Inputs and Features

- Congestion Management Process (CMP)
  - Transit
  - Traffic Operations
  - Travel Demand Management
  - Added Capacity
- Regional Mobility Strategy (RMS)
  - 4 "Keystone" highway projects
  - Freight rail corridors: at-grade intersections
  - Transit: County's Rural Regional Transit
- MPO partners priority projects
- Evaluation & prioritization process
- Project readiness and development schedule
- Match and optimize funding levels FY20 UTP
  - Moving 6 TxDOT projects to outer years based on regional priorities
  - New funding opportunities in Cats 2, 7, and 10 CBI
  - Accelerate Local Government projects worth **\$176M**

## Schedule Milestones

#### August 2019

- MPO staff one-on-one meetings with implementing agencies
- Initial ID of funding opportunities
- TxDOT's FY2020 UTP approved

#### September 2019

- Finalize one-on-one meetings
- Sept 9<sup>th</sup>: CMP ad-hoc committee, initial strategies
- Sept 20<sup>th</sup>: Update to TPB
- Sept 30<sup>th</sup>: MPO staff completes preliminary list of candidate projects

#### October 2019

- Oct 2<sup>nd</sup>: draft list to TPAC, MPO initiates internal evaluation process
- Oct 18<sup>th</sup>: draft list to TPB

#### November 2019

- Nov 6<sup>th</sup>: Status Report to TPAC
- Finalize Decision Lens evaluation process for highway projects
- Initiate discussion on regional transit needs
- Round 2 One-on-Ones with stakeholders
- Nov 15<sup>th</sup> TPB meeting:
  - CMP adopted
  - Status Report
- Initiate discussions with TxDOT-ELP and TPP on Cats 2, 4 and 12 projects

#### December 2019

- Dec 3<sup>rd</sup>: final list of projects to TPAC
- Dec 13<sup>th</sup>: final list of projects to TPB
- Dec 16<sup>th</sup>: Formalize discussions with TxDOT-ELP and TPP on Cats 2, 4 and 12 projects

#### January 2020

- Request TPAC and TPB specific MTP and TIP/STIP amendments
- Resolutions of support and MOUs

## List of Candidate Projects

#### Local Governments

- City of Socorro
  - New Hueco Tanks Extension (FM76 to SH20)
  - Arterial 1 (Tiwa Blvd)
- Town of Anthony
  - FM1905 reconstruction
- County of El Paso
  - John Hayes (Montwood to Pellicano)
  - Tierra de Este
  - Rural Transit
- Horizon City
  - North Darrington Reconstruction
  - Horizon City to UTEP Express Bus
  - Horizon Blvd @ Darrington
  - Socorro-Horizon City Bus Circulator
  - I-10, LP375 to FM1110
- City of El Paso
  - Sean Haggerty extension (Aaron St. to Dyer St.)
  - Rojas Drive (LP375 to city limits)
  - Railroad Dr. reconstruction
  - Hawkins Dr. extension to LP375
  - Zaragoza Rd. @ UPRR grade separation
  - Mesa St. Pedestrian Improvements (Glory Rd. to Robinson)

#### Sun Metro

- Streetcar Uptown Montana Ave. Crossover
- Far East Connector (Montana to Alameda)

#### TxDOT

- Keystone Projects
  - I-10 Segment 2 (Downtown)
  - I-10 Segment 3 (Copia to Airway)
  - I-10 @ SH178 (Artcraft)
  - Borderland Expressway
- Projects in the FY2020 UTP
  - LP375 (Purple Heart) widening and frontage roads (US62/180 to Spur 601)
  - LP375 (Purple Heart) @ Sargeant Major interchange
  - LP375 (Americas) main lanes widening
  - LP375 (Americas) frontage roads and ramp reversals
  - I-10 (Mesa St. to NMSL) widening
  - US 62/180 (Montana Ave.) Phase 2
  - US 54 mainlanes (Kenworthy to McCombs)
  - LP375 (Purple Heart) widening (Spur 601 to Dyer)
  - I-10 widening (Eastlake to Horizon Blvd)
  - Spur 601 widening

## **Decision Lens**

## **Decision Lens**

## Key Features – Handout

# PERFORMANCE BASED PLANNING AND PROGRAMMING UPDATES TO THE AMENDED DESTINO 2045 MTP

On the following pages are the Performance Based Planning and Programming (PBPP) assumptions that were adopted by the El Paso MPO in the Original Destino 2045 MTP to include:

- Highway Safety Improvement Program, known as PM1
- Assessing Pavement Condition for the National Highway Performance Program and Bridge Condition for the National Highway Performance Program, known as PM2
- Assessing Performance of the National Highway System, Freight Movement on the Interstate System, and On-road Mobile Source Emissions Targets for the Congestion Mitigation and Air Quality (CMAQ) program, known as PM3
- Transit Asset Management (TAM)

Targets for safety measures are set annually and 2020 safety targets start on the next page. PM 2 and TAM targets in the Amended Destino 2045 MTP are the same as the original Destino 2045. PM 3 targets are the same with the exception of the CMAQ Targets. At the time the Amended Destino 2045 MTP was being developed, the El Paso MPO was in coordination with TxDOT to update the 4-year targets for Particulate Matter-10 (PM10) and Carbon Monoxide (CO). The El Paso MPO was also in coordination with NMDOT to update the 4-year target for PM 10.

On September 18, 2020 the El Paso MPO's Transportation Policy Board (TPB) updated the 4-year PM-10 target to 21.96 kg/day and updated the CO target to 841.62 kg/day for the Texas portion of the El Paso MPO planning area. Also, the TPB updated the 4-year PM-10 target to 3.48 kg/day for the New Mexico portion of the El Paso MPO planning area. These targets will replace the original targets on the following pages.

Also, on September 18, 2020 the TPB adopted Sun Metro's Public Transportation Agency Safety Plan (PTASP), which includes Fixed Routes, Street Car and Paratransit targets. See PTASP presentation to the TPB and PTASP targets at the end of this section.

# PERFORMANCE BASED PLANNING AND PROGRAMMING IN THE ORIGINAL DESTINO 2045 MTP

Measuring and tracking the performance of the region's transportation system is a fundamental component of the Metropolitan Transportation Plan (MTP) and the performance-based planning process. Federal legislation passed in 2012 introduced a new requirement to incorporate a performance-based approach into the transportation planning process. The legislation, the Moving Ahead for Progress in the 21st Century Act, known as MAP-21, requires state Departments of Transportation (DOT), Metropolitan Planning Organizations (MPO), and transit authorities to set coordinated targets, report on a required set of performance measures, and prioritize projects using a coordinated performance-based planning process. These performance requirements were continued and reinforced by the Fixing America's Surface Transportation (FAST) Act, which was signed into law in 2015. Four Transportation Performance Management final rules have been released by the Federal Highway Administration and the Federal Transit Administration, passed through standard rulemaking procedure, and are now effective. Each final rule lists required measures, data sources, and calculation procedures.

The final Highway Safety Improvement Program, known as PM1

- Assessing Pavement Condition for the National Highway Performance Program and Bridge Condition for the National Highway Performance Program, known as PM2
- Assessing Performance of the National Highway System, Freight Movement on the Interstate System, and Congestion Mitigation and Air Quality Improvement Program (CMAQ), known as PM3
- Transit Asset Management

Federal performance measure final rules establish deadlines for target setting and reporting for each of the required performance measures. For the measures identified in each final rule, MPOs are required to include adopted targets, baseline performance measures, and progress toward the targets in the Destino 2045 MTP adopted two years after the effective date of the final rule. The four performance measure final rules currently effective were established at different times, and therefore have different target-setting and implementation deadlines, as seen below:

Final Rule	Rule Effective Date		Required to be		
rinai kule	Rule Effective Date	Provider	State DOT	MPO	Included in MTPs
Safety (PM1)	4/14/2016	N/A	8/31/2017	2/16/2018	5/27/2018
Pavement and Bridge Condition (PM2)	5/20/2017	N/A	5/20/2018	11/16/2018	5/20/2019
System Performance/Freight/CMAQ (PM3)	5/20/2017	N/A	5/20/2018	11/16/2018	5/20/2019
Transit Asset Management	10/01/2016	1/01/2017	10/01/2017	9/21/2018	10/01/2018

<sup>\*</sup>Safety (PM1) is updated yearly

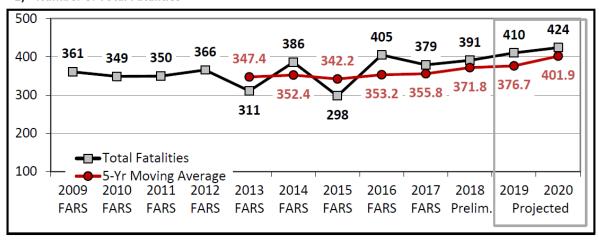

#### Safety (PM1):

On January 24, 2020 the El Paso MPO adopted the State of Texas Department of Transportation (TXDOT) and New Mexico Department of Transportation (NMDOT) targets for 5 Safety Performance measures based on five-year rolling averages for:

- 1. Number of Fatalities,
- 2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT),
- 3. Number of Serious Injuries,
- 4. Rate of Serious Injuries per 100 million VMT, and
- 5. Number of Non- Motorized Fatalities and Non-Motorized Serious Injuries

#### NMDOT PM 1 (Safety) 2020 Targets

#### 1) Number of Total Fatalities

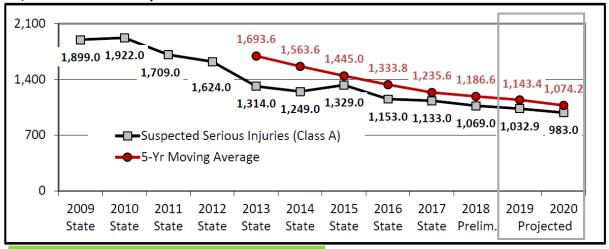

# NMDOT 2020 Target for Number of Total Fatalities: 401.9

**NMDOT Justification:** Although five-year average fatalities rose by a moderate 2.4 percent between 2013 and 2017, preliminary and projected data indicate that fatalities will increase by about 13 percent between 2017 and 2020. Fatalities involving SUVs, pickup trucks and pedestrians are increasing and in 2018, accounted for 51.4 percent of all crash fatalities. Given the prevalence of SUV and pickup truck ownership, and projected increase in fatalities overall, the five-year average projection of 401.9 is determined to be the 2020 target.

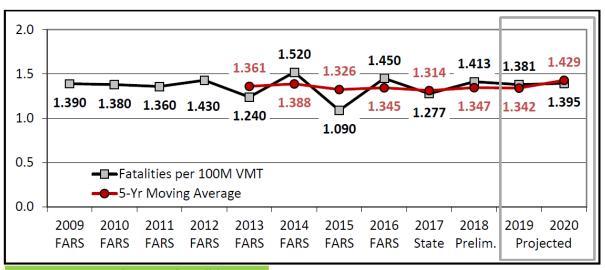

#### 2) Number of Serious Injuries

NMDOT 2020 Target for Number of Serious Injuries: 1,074.2

**NMDOT Justification:** Five-year average serious injuries are projected to fall by about 7.5 percent between 2017 and 2019, and the State anticipates a continued reduction in serious injuries in 2020. The five-year average projection of 1,074.2 is the 2020 target.

#### 3) Rate of Fatalities

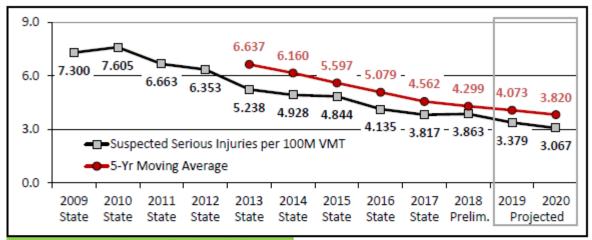

NMDOT 2020 Target for Rate of Fatalities: 1.429

**NMDOT Justification:** Although five-year average fatalities are expected to increase in 2020 from 2017, VMT is also expected to rise, thus the projected five-year average of 1.429 is the 2020 target.

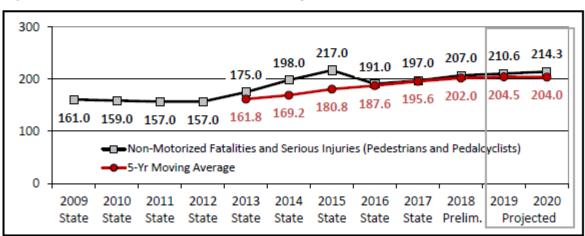

#### 4) Rate of Serious Injuries

NMDOT 2020 Target for Rate of Serious Injuries: 3.820

NMDOT Justification: Justification: Five-year average serious injury rates are projected to continue falling, thus the five-year average projection of 3.820 is the 2020 target.

#### 5) Number of Non-motorized Fatalities and Serious Injuries

NMDOT 2020 Target for Number of Non-motorized Fatalities and Serious Injuries: 204.0

**NMDOT Justification:** Five-year average non-motorized fatalities and serious injuries are projected to rise by about 5 percent over the next three years. The five-year average projection of 204.0 is the 2020 target.

# TXDOT (PM1) TARGETS:

**Target: Total number of traffic fatalities** 

2020 Target: To decrease the expected rise of fatalities to not more than a five-year average of 3,840 fatalities in 2020. The 2020 Target expressed as a 5-year average would be as follows:

Year	Target or Actual Data	Source
2016	3,797	FARS
2017	3,722	ARF
2018	3,631	CRIS
2019	3,980	Target
2020	4,068	Target
2020 Target expressed as		3,840
5-yea	r average	3,840

As noted in the table above, the calendar year target for 2020 would be 4,068 fatalities.

**Target: Total number of serious injuries** 

2020 Target: To decrease the expected rise of serious injuries to not more than a five-year average of 17,533 serious injuries in 2020. The 2020 Target expressed as a 5-year average would be as follows:

Year	Target or Actual Data	Source
2016	17,573	CRIS
2017	17,535	CRIS
2018	14,892	CRIS
2019	18,367	Target
2020	18,602	Target
2020 Target expressed as 5-year average		17,394

As noted in the table above, the calendar year target for 2020 would be 18,602 serious injuries.

#### Target: Fatalities per 100 million vehicle miles traveled

2020 Target: To decrease the expected rise of fatalities per 100 MVMT to not more than a five-year average of 1.406 fatalities per 100 MVMT in 2020. The 2020 Target expressed as a 5-year average would be as follows:

Year	Target or Actual Data	Source
2016	1.40	FARS
2017	1.37	ARF
2018	1.31	CRIS
2019	1.47	Target
2020	1.48	Target
2020 Target expressed as 5-year average		1.406

As noted in the table above, the calendar year target for 2020 would be 1.48 fatalities per 100 MVMT.

# Target: Serious Injuries per 100 million vehicle miles traveled

2020 Target: To decrease the serious injuries per 100 MVMT to not more than a five-year average of 6.286 serious injuries per 100 MVMT in 2020. The 2020 Target expressed as a 5-year average would be as follows:

Year	Target or Actual Data	Source
2016	6.48	CRIS
2017	6.42	CRIS
2018	5.37	CRIS
2019	6.60	Target
2020	6.56	Target
2020 Target expressed as 5-year average		6.286

As noted in the table above, the calendar year target for 2020 would be 6.56 serious injuries per 100 MVMT.

# Target: Total number of non-motorized fatalities and serious injuries

2020 Target: To decrease the expected rise of non-motorized fatalities and serious injuries to not more than a five year average of 2,285.0 non-motorized fatalities and serious injuries in 2020. The 2020 Target expressed as a 5-year average would be as follows:

Year	Target or Actual Data	Source
2016	2,304	FARS-CRIS
2017	2,146	ARF-CRIS
2018	2,104	CRIS
2019	2,394	Target
2020	2,477	Target
0	et expressed as r average	2,285.0

As noted in the table above, the calendar year target for 2020 would be 2,477 non-motorized fatalities and serious injuries.

# Pavement and Bridge (PM2):

On November 16, 2018 the El Paso MPO adopted the State of Texas Department of Transportation (TXDOT) and New Mexico Department of Transportation (NMDOT) targets for six Pavement and Bridge Performance measures:

- 1. Percentage of Interstate pavements in Good condition,
- 2. Percentage of Interstate pavements in Poor condition,
- 3. Percentage of non-Interstate NHS pavements in Good condition,
- 4. Percentage of non-Interstate NHS pavements in Poor condition,
- 5. Percentage of NHS by deck area classified as in Good condition, and
- 6. Percentage of NHS by deck area classified as in Poor condition

# NMDOT PM2:

Performance Measure	4 Year (2021)
Percentage of bridges on the NHS in Good condition	30.0%
Percentage of bridges on the NHS in Poor condition	2.5%
Percentage of Interstate pavements on the NHS in Good condition	59.1%
Percentage of Interstate pavements on the NHS in Poor condition	5.0%
Percentage of Non-Interstate pavements on the NHS in Good condition	34.2%
Percentage of Non-Interstate pavements on the NHS in Poor condition	12.0%

#### TXDOT PM2:

Performance Measure	2022 Target
Pavement on IH	
% in "good" condition	66.4%
% in "poor" condition	0.3%
Pavement on non-IH NHS	
% in "good" condition	52.3%
% in "poor" condition	14.3%
NHS Bridge Deck Condition	
% in "poor" condition	0.80%
% in "good" condition	50.42%

# Freight and Air Quality (PM3):

On November 16, 2018 the El Paso MPO adopted the State of Texas Department of Transportation (TXDOT) and New Mexico Department of Transportation (NMDOT) targets for the following Freight and Air Quality measures:

- 1. National Highway System Travel Time Reliability Measures:
  - a. Interstate Reliability
  - b. Non-Interstate Reliability,
- 2. Freight Reliability Measure:
  - a. Truck Travel Time Reliability, and
- 3. Congestion Mitigation and Air Quality (CMAQ):
  - a. Total Emission Reduction Measure

# NMDOT PM3:

Performance Measure	2021 Target
NHS Travel Time Reliability	
IH Level of Travel Time	
Reliability	95.1%
Non-IH Level of Travel Time	
Reliability	90.4%
Performance Measure	2021 Target
Truck Travel Time Reliability	1.15
	2021 Target
Performance Measure	2021 Target
Performance Measure  Total Emission Reduction	2021 Target
	2021 Target

On September 18, 2020 the El Paso MPO's Transportation Policy Board (TPB) updated the 4-year PM-10 target to 3.48 kg/day for the New Mexico portion of the El Paso MPO planning area.

# TXDOT PM3:

Performance Measure	2022 Target
NHS Travel Time Reliability	
IH Level of Travel Time	
Reliability	56.6%
Non-IH Level of Travel Time	
Reliability	55.4%
Performance Measure	2022 Target
Performance Measure Truck Travel Time Reliability	2022 Target 1.79
Truck Travel Time Reliability	1.79
Truck Travel Time Reliability  Performance Measure	1.79
Truck Travel Time Reliability  Performance Measure	1.79

On September 18, 2020 the El Paso MPO's Transportation Policy Board (TPB) updated the 4-year PM-10 target to 21.96 kg/day and updated the CO target to 841.62 kg/day for the Texas portion of the El Paso MPO planning area.

# **Transit Asset Management (TAM):**

On September 21, 2018 the Transportation Policy Board approved two new MPO Planning Memorandums of Understanding (MOU), one for Texas and one for New Mexico. The MOU's outline the roles and responsibilities of the states, the MPO, and the mass transit provider, Sun Metro, in carrying out the metropolitan transportation planning process and associated performance measures. Based on the federal performance measure final rule on Transit Asset Management (TAM) issued in July 2016, MPOs are required to coordinate with transit providers to set performance targets and integrate individual transit providers' performance targets and TAM plans into planning documents. El Paso MPO reached out to the transit providers in the region to include Sun Metro the mass transit provider for the region and requested targets. The El Paso MPO Transportation Project Advisory Committee (TPAC) reviewed Sun Metro targets, the state of Texas, and the state of New Mexico targets and recommended that the El Paso MPO Transportation Policy Board (TPB) adopt the state of Texas' targets, as the targets for the El Paso MPO. Sun Metro may have agency-level targets that differ from the El Paso MPO adopted targets. These agency-level targets may better meet their needs in planning for state of good repair for Sun Metro. EPMPO will continue to coordinate with Sun Metro to report, track, and adjust the targets over time to meet the El Paso MPO targets.

#### El Paso MPO TAM 4 year targets

Performance Measure	Baseline	2020 Target	2022 Target
Transit Asset Management			
% revenue vehicles at or			
exceeding useful life			
benchmark			<15%
% service vehicles (non-			
revenue) at or exceeding			
useful life benchmark			<15%
% facilities rated below 3 on			
condition scale (TERM)			<15%
% track segments with			
performance restrictions			N/A

As part of the FAST Act, performance measures were incorporated for transit agencies, primarily through the Transit Asset Management (TAM) assessment and planning requirements. Sun Metro's TAM plan was developed to meet that requirement. Sun Metro continuously seeks grants through the regional MPO in order to supplement the competitive and formula funding grants available from the FTA. Primarily Sun Metro applies for FHWA Congestion Mitigation and Air Quality (CMAQ) and Surface Transportation Program (STP) funding through the MPO. Funding from these grants are crucial to the agency's State of Good Repair (SGR) program and the resulting Transit Asset Management Plan (TAM). CMAQ funds provide for new and replacement bus funding, to include vehicles needed for new and extended services. Funding also allows for new or enhancements of terminals and stops to include accessibility and passenger amenities if associated with new or extended services. STP provides similar funding but without the new or extended service requirements. This grant funding not only permits Sun Metro to provide efficient and dependable service but supplements funding from other sources necessary to maintain SGR standards. In FY2019 CMAQ, the federal funding portion obtained through the regional MPO, will total approximately \$5.5M for operating assistance (Dyer and Alameda BRT's and Streetcar services) plus replacement funding for three buses. As of October 2018 Sun Metro had been awarded approximately \$7.1M of funds for new revenue vehicles that were unspent or pending, including grants obtained through the CMAQ program and other grant programs.

# Sun Metros Performance Measures Fix Routes: Adopted by TPB 9/18/20

Performance Measures – Fix Route Per every 100,000 miles		Fiscal Year

# **Technical Memorandum**

**DATE:** September 9, 2020 **CC:** Claudia Valles, Roger Williams

FROM: Sonia Perez, El Paso RE: Destino MTP Amendment - Network coding

TO: Salvador Gonzalez-Ayala

#### **Executive Summary**

The following are the additions/changes made to the TDM to reflect the MTP 2045 Amendments. Please refer to information in attribute "EDIT\_Amend" for description of edits. Also, please refer to Build year and Remove year attribute for information on network year the link is enabled. The link ID numbers listed in the memo correspond to the ID attribute in the shapefile not the FID.

# A) Projects moved from the 2030 to 2040 network year:

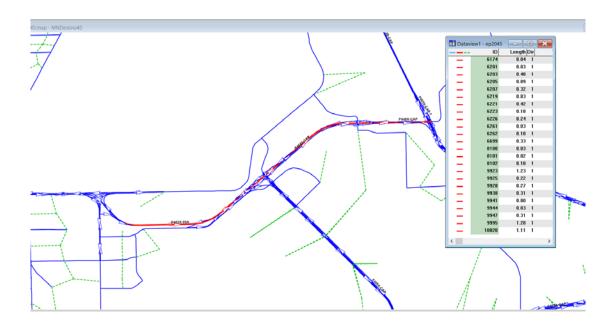

**A1.-** Spur 601 Widening (Project ID: P402X-05A, CSJ: 1046-03-004)

Project Description: Widen from 4 to 6 lanes.

Limits: From Airport road to SL 375 (Purple Heart Highway).

Amendment: Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES,

BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

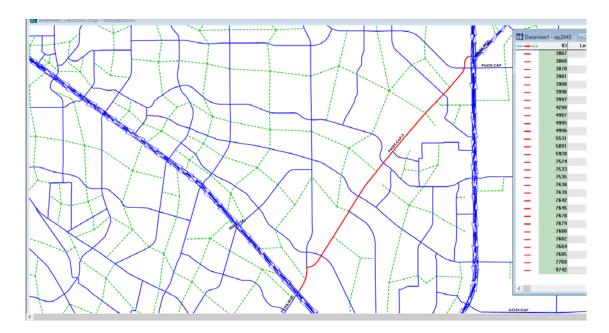

**A2.-** FM 659 Zaragoza Rd/George Dieter Dr. – Segment 2 (ProjectID: P428X-CAP-2, CSJ 1046-01-020)

<u>Project Description</u>: Widen from 4 to 6 lanes including roadway and operational improvements on existing 6 lane segment.

Limits: From IH 10 to SL 375 (Joe Battle BLVD)

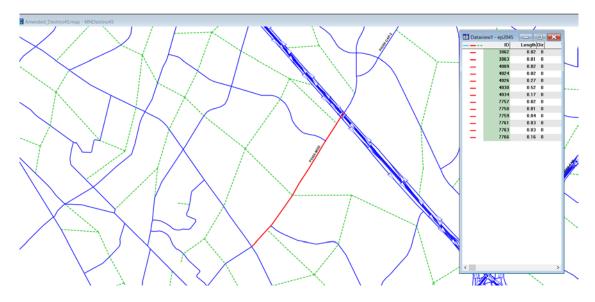

<u>Amendment</u>: Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

A3.- FM 659 Zaragoza Rd. widening - Segment 3 (Project ID: P530X-MOD, CSJ 1046-01-022)

<u>Project Description</u>: Widen from 4 to 6 lanes including roadway and operational improvements. Limits: From IH 10 to FM 76 (North Loop DR)

Amendment: Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

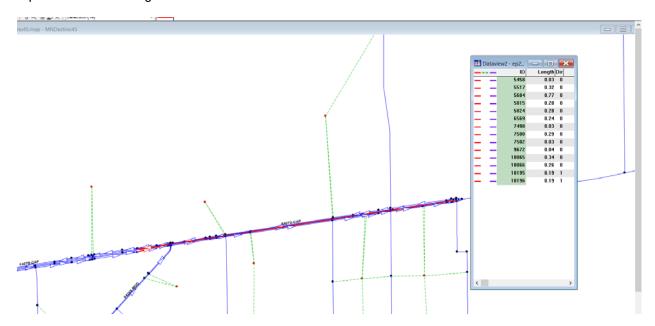

A4.- US 62 (Montana) Expressway Ph4 widening (Project ID: F407D-CAP, CSJ:0374-02-102)

<u>Project Description</u>: Widen from 4-lanes undivided to 6-lanes divided and construct overpass <u>Limits</u>: From FM 659 (Zaragoza Rd) to Desert Meadows.

Amendment: Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

Links 10195 and 10196 were added from 2030 and beyond to provide connectivity from mainlane directional links west of Zaragoza to the bi-directional link east of Zaragoza. This project was not detail

coded with directional links at the overpass since there is no schematic yet developed for this project to be able to detail code. The number of lanes for links 10195 and 10196 increases from 2 to 3 in 2040 to represent the widening in 2040.

As part of the model update, multiple links were deleted since they were previously coded as part of an old project in Horizon MTP (F404C-CAP) but are no longer needed nor considered in future projects for Destino 2045 Amendment. A total of 59 links were deleted.

**A5.-** Global Reach Dr. reconstruction of existing mainlanes and addition of frontage roads (ProjectID: F405X-CAP CSJ:924-06-532)

<u>Project Description</u>: Reconstruction of existing mainlanes (6 lanes, 3 in each direction) at Global Reach Dr. and addition of frontage roads, construct 4 lane frontage roads (2 in each direction), and single lane direct connectors at SS 601 NB to WB and EB to SB.

Limits: From (On Global Reach DR) US 62/180 Montana Ave. to SS 601

Amendment: Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

Updates to centroid connectors were also needed to reflect change in network year.

Links 9788 and 10011 were divided and new links created (10119,10120) as a model update.

**A6.-** Border Highway East (BHE) - Phase 1(F059X-CAP-1, CSJ 0924-06-591)

<u>Project Description</u>: Build 4 lanes divided highway including 2-lanes direct connectors at SL 375 (WB-WB and EB-EB direction coming in/out of BHE) and connection to Pan American at Winn Road.

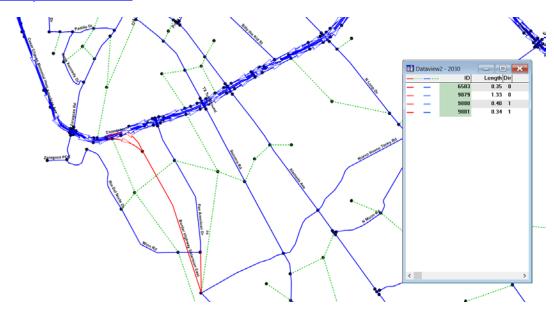

<u>Limits:</u> From SL 375 (Americas Avenue) to Nuevo Hueco Tanks Extension.

<u>Amendment:</u> Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

Centroid connector ID 10024 was disabled since is no longer needed due to the network change.

Connection to Pan American was added to reflect TxDOT's concept provided. Link ID 6503. Project description was also changed in project list.

# https://cityofelpasomy.sharepoint.com/:b:/g/personal/perezsa\_elpasotexas\_gov/Ec2Tqctt1aNEpKckGWOWJfoBtNgMnlYwqEBfDwJiyPi2w?e=kZiV26

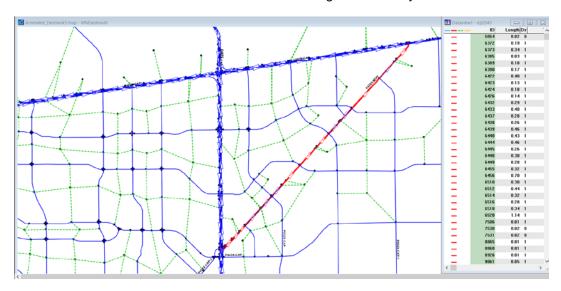

# **A7.-** FM 659 (Zaragoza Road) widening. (P428X-MOD, CSJ 1046-01-021)

<u>Project Description</u>: Widening 4 lanes to 6 lanes divided, to include transitional work from LP 375 to Sunfire<u>Limits</u>: From Loop 375 to US 62/180 (Montana Ave.).

<u>Amendment</u>: Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

Updates to links 8868 and 8865 were needed to reflect change in network year.

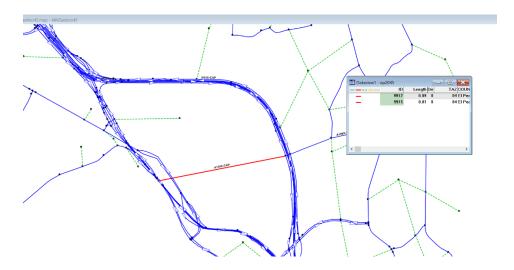

**A8.-** Mesa Park extension (A136X-CAP, CSJ 0924-06-590)

Project Description: Build 4 lanes undivided road extension.

Limits: From IH-10 to SH 20 (Doniphan Dr.)

<u>Amendment</u>: Project was moved from 2030 to forecast year 2040. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2040.

# B) Projects moved from the 2020 to 2030 network year:

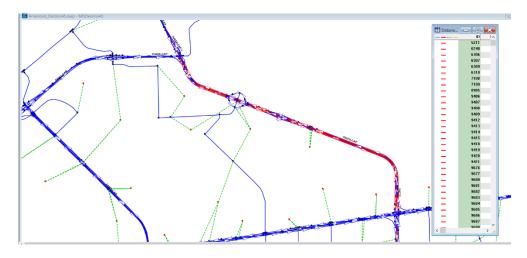

**B1.-** Loop 375 (Purple Heart) Widening and Construction of Frontage Roads. (Project ID: F057X-CAP CSJ: 2552-02-028)

<u>Project Description</u>: Widen 4 to 6 lanes on mainlanes and construct 2 lane frontage roads in each direction.

Limits: From Spur 601 to US 62/180 (Montana Ave)

Amendment: Project was moved from 2020 to forecast year 2030. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2030. The additional lane was coded as a separate inside link in Destino 2045 as an alternative to a potential managed lane. It has been kept as a separate link in the amendment.

Link IDs 9737, 9714, 9730,9719 were moved to 2030 in addition to centroid connectors.

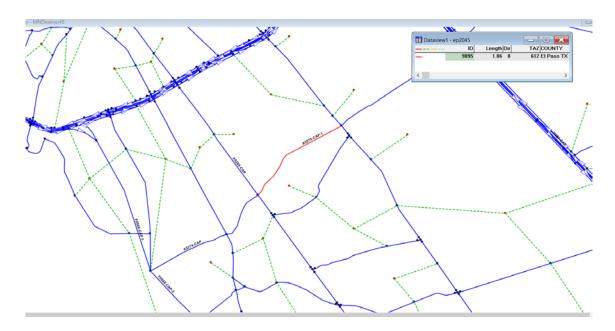

#### C) Projects moved from the 2040 to 2030 network year:

C1.- Nuevo Hueco Tanks extension- Phase I (Project ID: A527X-CAP-1, CSJ: 0924-06-607)

Project Description: Build 4 lane roadway

Limits: From FM 76 North Loop Dr. to SH 20 - Alameda Avenue

<u>Amendment</u>: Project A527X-CAP was divided into two phases. Phase I was moved from 2040 to forecast year 2030. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2030. The street name was also updated from "Old" Hueco Tanks to "Nuevo" Hueco Tanks.

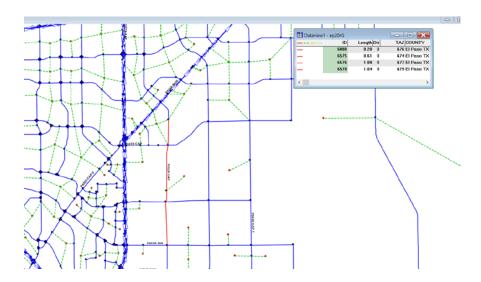

C2.- Tierra Este (Arterial 1) (Project ID: P002X-CAP-1 and P002X-CAP-2)

Project Description: Build 6 lane divided with bicycle lanes

Limits: From Pellicano to Cozy Cove.

<u>Amendment</u>: Project was moved from 2040 to forecast year 2030. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2030. Ultimate Project ID P002X-CAP-2 will be coded in the model.

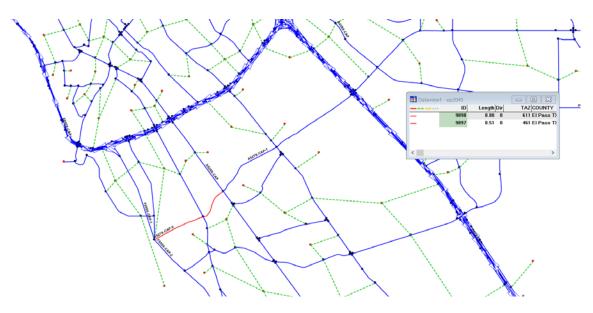

# D) New Phases

Nuevo Hueco Tanks Extension- Phase II (Project ID: A527X-CAP-2, CSJ: 0924-06-607)

Project Description: Build 4 lane roadway

<u>Limits</u>: From SH 20 – Alameda Avenue to Border Highway East (BHE)

<u>Amendment</u>: Project A527X-CAP was divided into two phases (A527X-CAP-1 and A527X-CAP-2). This segment stays in the 2040 network. Only the street name and the Project ID were changed to reflect phase 2 (Links 9898, 9897)

# E) Road Diets

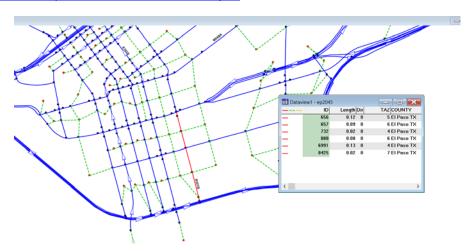

**E1.-** CBD IV (ProjectID: R307D, CSJ: 0924-06-562)

# Campbell St./Kansas St. from Eighth Ave. to Paisano Dr. (0.38 miles)

Campbell St/Kansas St. will be reduced from 3 to 2 lanes (2-each direction) to accommodate the proposed 2-way cycle track in 2030. Campbell St. and Kansas St. are model as a pair. One segment three lanes in each direction. There are 5 links that will have to be updated from 3 to 2 lanes in 2030. In addition, link ID 732 (from Eight Ave. to Loop 375) will be reduced to 1 lane in each direction in 2020 to code existing conditions. Kansas is now closed to at the Loop 375 and Campbell only has access to the westbound lanes of Loop 375.

For information on the downtown connectivity to Border Highway West MPO used the following schematics:

https://cityofelpaso-my.sharepoint.com/:b:/g/personal/perezsa\_elpasotexas\_gov/EQ4HAo\_jJwZBlQB-YpZWqSlBkFUVkwNq2MHY9cOFldmJRQ?e=fmcj7N

### E2.- Downtown Bicycle Improvements Phase I (ProjectID: M089A, CSJ: 0924-06-570)

#### a) <u>Campbell St. from Missouri Ave. to Paisano Dr</u>. (0.56 miles)

This segment of Campbell St. will be reduced from 3 to 2 lanes to accommodate the proposed 2-way cycle track facility in 2030. Campbell St. and Kansas St. are coded as a pair, one segment with three lanes in each direction. There are 13 links that will have to be updated from 3 to 2 lanes in the northbound direction (LANES\_AB).

#### b) Mills Ave. from Sheldon Ct. to Virginia St. (0.5 miles)

This segment of Mills Ave. will be reduced from 3 to 2 lanes (one-lane per each direction) to accommodate the proposed sharrows & bike lane in year 2030. Mills Ave. is only coded in the model from Sheldon Ct. to Mesa St. The segment from Sheldon Ct. to Oregon St. is coded as a 3-lane one-way street and from Oregon St. to Mesa St. is coded as a bi-directional street one-way each direction.

Network edits: Link ID 970 was divided at Sheldon Ct. to create a new link from node 7127 to 3143 (El Paso St to Oregon St) with DIR=0 and one-lane per each direction. The new link is enabled from years 2030 and beyond. Links 8397 and new link 10067 were disabled from years 2030 and beyond.

#### c) Missouri from Mesa St to Campbell. (0.19 miles)

This segment of Missouri will be reduced from 3 to 2 lanes to accommodate the proposed 2-way cycle track facility in 2030. The model will be updated to reflect the reduction to 2 lanes.

Link IDs: 932,934,935,8376,8381.

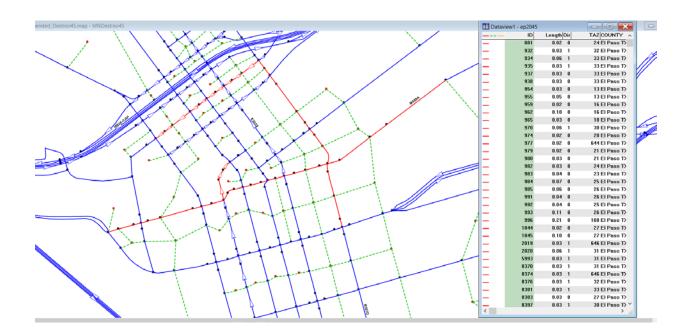

#### d) San Antonio from Anthony to Virginia. (0.84 miles)

The segment of San Antonio Ave. from El Paso St. to Campbell St. will be reduced from existing 3 lanes (2 EB/1 WB) to 2 lanes (one each direction) to accommodate the proposed sharrows and bike lane in 2030.

This segment of San Antonio is modeled as a pair link with Overland St. with-3-lanes each direction. The segment from Pasano Dr. to El Paso St. only needs a change in the local street name to San Antonio/Overland. For the segment from El Paso St. to Magoffin/Myrtle, 13 links will have to be coded as 2 lanes in the westbound direction and 2 lanes in the eastbound direction to represent the lane reduction (road diet).

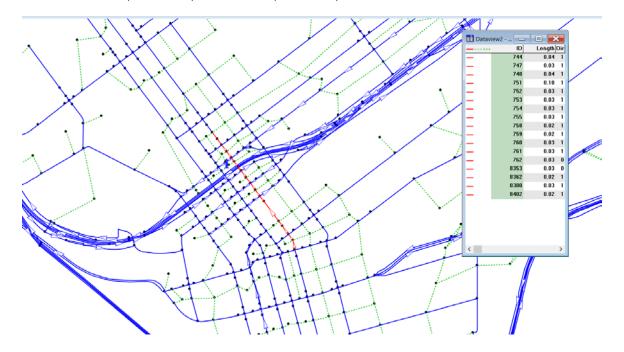

# e) Magoffin from San Antonio to Virginia:

Magoffin Ave. (EB one-way street) will be reduced from 3 lanes to 2 lanes from San Antonio Ave. to Virginia St. to accommodate a bike facility in 2030. The road is coded as a pair with Myrtle Ave. (WB one-way street) . Two links will have to be reduced from 3 to 2 lanes in the Eastbound direction (AB\_Lanes). Link ID 996 will have to be divided at Virginia St. to detail code the limits. "Local\_Street" also needs to be updated to Magoffin Ave./Myrtle Ave. to identify the correct street pair. New Link ID = 10068 Topology direction is inverted (AB\_Lane is westbound direction), therefore for this link the BA\_Lanes was coded as 2 lanes. Please see below item F7 for model update coding in 2020 along Myrtle Ave.

**E3.-** Stanton Two-Way Cycle Track Roadway Improvements. (ProjectID: E303X, CSJ: 0924-06-571)

The segment of Stanton St. from San Antonio Ave. to Rio Grande Ave. (0.57 miles) will be reduced from 3 to 2 lanes to accommodate the proposed 2-way cycle track in 2030. This segment is currently coded as 3 lanes northbound from San Antonio Ave. to Montana Ave. and 2 lanes NB/ 1 lane SB from Rio Grande Ave. to Montana Ave. as existing. There are 15 links that will have to be reduced from 3 to 2 lanes in the northbound direction (AB Lanes). And 2 links (8353, 762) were reduced to 1 lane on each direction.

# F) Model updates

F1.- SH 178 Artcraft Road Interchange Improvements. (ProjectID: P136X, CSJ: 3592-01-009)

Artcraft (SH178) Interchange is expected to let in 2023 and open to traffic in late 2025. The interchange was detail coded in the 2030 network, including ramp reversal to ramps on I-10 north and south of the interchange as presented in the schematic provided by TxDOT.

https://cityofelpaso-my.sharepoint.com/:b:/g/personal/perezsa\_elpasotexas\_gov/EZCpQAq-HfpOhfAoWwN5-XAB2m4bTZRTfdpJbQK2kIISdq?e=vqxu4I

Four (4) direct connector ramps will be built (SB-WB, EB-NB, EB-SB and NB-WB). The 1-10 Eastbound to SH 178 Westbound ramp is being suggested by TxDOT to be coded as 1-lane and the rest of the ramps as 2-lanes.

The interchange will be detail coded in the model in year 2030. Artcraft/Paseo del Norte segment from 0.28 Miles west of I-10 to Northwestern Dr. is coded as a one bi-directional link. This segment will have to be coded as two directional links to be able to add the direct connectors. Ramps are also proposed to be re-located along Artcraft and I-10.

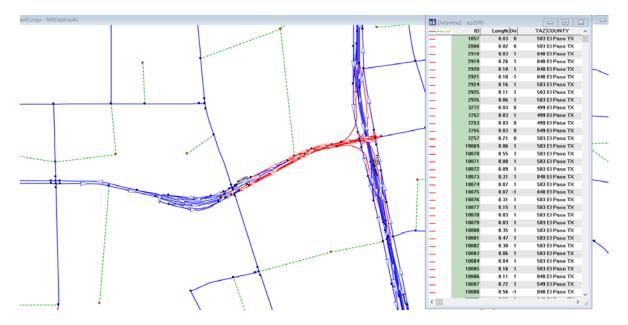

New links added: 10074, 10075, 10072,10071,10070,10073,10069 (DC-Ramp),10080,10081,10083,10084,10095,10092,10093,10098,10099,10100,10106.

Links divided: 2924, 2921,2926,707,679,675,707,3258,668,676,7252,681,687,689,1152.

Links 2922 is shown as 4 lanes in the schematic but there are only 3 existing. Adding the lane will require changing the description in the project list. The links were kept as 3 lanes in 2030.

Ramps ID 667,671,672,3261 removed in 2030.

Link IDs: 1057, 2000, 3272, 7253, 7255, 7257 (removed in 2030, update coding to bi-directional)

#### **F2.-** IH 10 widening. (ProjectID: I405X-CAP, CSJ: 2121-01-094)

https://citvofelpaso-

my.sharepoint.com/:f:/g/personal/perezsa\_elpasotexas\_gov/EguLO3qU8ypKiDrSRBTftxQBwgY5XQ8LqtpL3vCHwF6rng?e=4hlvai

Project Description: Widen from 4 to 6 lanes divided

Limits: From FM 1905 (TX/MX Stateline) to SH 20 (Mesa St.)

Amendment: The widening of IH 10 is already coded in the model in network year 2030. The additional lane was coded as a separate inside link in Destino 2045 as an alternative to a potential managed lane. The model update was to detail code the overpass at Los Mochis Dr. (ID= 10153) and the ramp reversal as provided in the latest schematics.

Links divided: 254,3258,10104,665,3257,3255,9325,10142,10149,10143,9325,578, 573,3254,9316,539,10166,10165,573,3254,51,41,43,9321,43,2665,165,10175,1649,351,93,9868,3250, 91.

#### F3.- LP 375 @ Spur 601 (Direct Connectors) (ProjectID: P448X-CAP, CSJ: 1046-03-005)

<u>Project Description</u>: Construct 2-lane Northbound to Westbound and 2-lane Eastbound to Southbound direct connectors.

Limits: Spur 601 Liberty Expy at Loop 375 (Purple Heart)

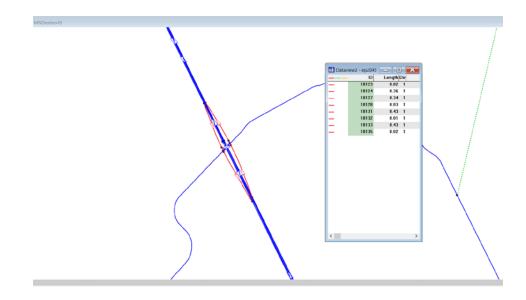

<u>Amendment</u>: Project was moved from 2020 to 2030 network year. The attributes were updated to reflect the change to 2030 network. Operational Improvements. Coded as Model update. Not part of the conformity determination.

Link IDs: 6700, 9726, 9945.

#### F4.- SL 375 Interchange (at SGT Major) (ProjectID: F409X-MOD CSJ: 2552-02-035)

Project Description: Operational improvements for the intersections of Sargent Major Blvd Limits: 1.0 miles north of SGT Major to 1.0 miles south of SGT Major Amendment: New project in 2030 network, detail coding of u-turn (10129,10136) at intersection was coded. A model update was needed in 2020 to be able to detail code the u-turns in 2030. Links 10123,10124,10127,10128,10131,10132,10133,10135 to detail code the intersection.

Divided links: 9387, 9399, 6234, 7485, 9404,7099.

F5.- Mesa Park Dr. (ProjectID: A126X-CAP) Moved to 2030.

Project Description: Build 4 lane divided

Limits: From IH-10 to Mesa Ave.

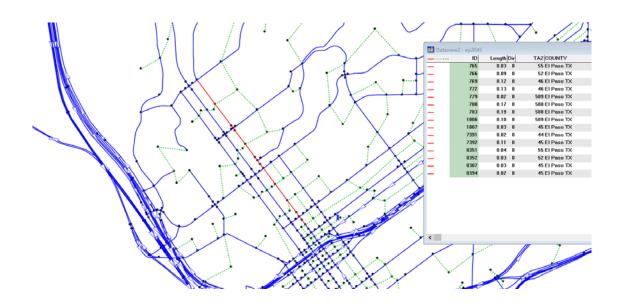

<u>Amendment</u>: Project was moved from 2020 to forecast year 2030. Roadway attributes (FUNCL, LANES, BuiltYear, ProjectID, etc.) were updated to reflect project in 2030. Project was incorrectly coded in year 2020 in the Destino 2045 TDM.

# F6.- Street Car and Bike lanes -Model update (EDIT\_Amend= "Street Car")

<u>Project Description</u>: New transit service intended to reduce congestion and CO emissions. Initiated operations in 2019.

<u>Limits</u>: segment of Stanton street is from Rio Grande to Baltimore (Segment that was reduced 1 lane in each direction to accommodate the bike lanes and street car/turn lane).

Amendment: Reduce one lane in each direction in 2020 network.

#### **F7.-** Myrtle from Ochoa St. to Cotton (Links: 996,997,1151,8503)

This segment of Myrtle is coded as a pair with Magoffin Ave. There was a reduction of lanes due to angle parking from 3 to 2 lanes. The network was updated to reflect this change in 2020. Please be aware of the link's topology direction since it varies along this segment. In some links it is the AB Lanes that were updated and other links was the BA Lanes.

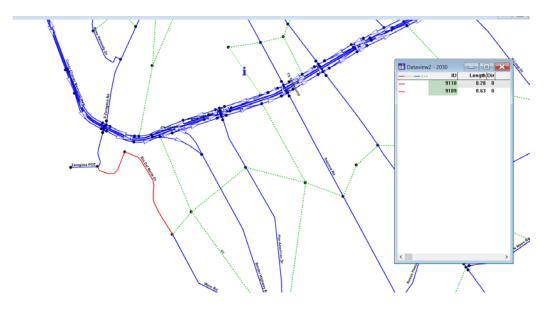

# F8.- El Paso St. (EDIT\_Amend= "Paseo de las Luces")

El Paso St. North of Paisano Dr. (from node 3153 to 7127) was converted from a one-way three lane street to a bi-directional street one-lane each direction. New links (10198,101998,10200) were created with DIR=0 and one-lane per each direction. These links are enable from years 2020 and beyond. Links 970, 971, 973, 8413, 8559 were disabled from years 2020 and beyond.

Similarly, El Paso St. South of Paisano Dr. Link IDs: 646,651,652, and 8431 were reduced from 3 lanes one-way to 2 lanes one-way in 2020 to reflect existing conditions.

# F9.- Winn Rd./Rio del Norte (Links 9109, 9110)

Segment of Rio del Norte from the Zaragoza POE Campus to Winn Rd. was updated to reflect existing 4 lanes (2 lanes in each direction) and the Functional Classification was updated to FUNCL=4 for consistency with Winn Rd. This is a detail coding (update) to a project in the Amended Horizon 2040 MTP for the 2020 network.

# F10.- US (Patriot Fwy) Mainlanes (MPO ID: F001B-15A, CSJ: 0167-01-122)

Project Description: Build 4 lane divided Hwy and grade separations

Limits: From Kenworthy St. to FM 2529 (mCcOMBS St)

<u>Amendment</u>: The mainlanes are already coded in the model in network year 2030. The model update was to detail code the ramp reversal as provided in the latest schematics.
