

**7 DAY PUBLIC COMMENT PERIOD FOR August 21, 2026
EL PASO MPO TPB MEETING**

Public comments for amendments to the El Paso MPO's documents are being accepted. The MPO's Transportation Policy Board (TPB) will consider these amendments for approval at the August 21, 2026, meeting.

1. [Consider approval of an amendment to the Amended Regional Mobility Strategy \(RMS\) 2050 Metropolitan](#) Transportation Plan (MTP), the RMS 2052 MTP, the RMS 2025–2028 Transportation Improvement Program (TIP), and the RMS 2027-2030 TIP to program the Sunland Park Drive/Futurity Intersection Reconstruction project with \$250,000 from the Federal Community Project Funding program in Fiscal Year 2027.

The City of Sunland Park is planning to reconstruct the Sunland Park Drive/Futurity intersection addressing existing deficiencies in traffic flow, drainage and safety. The proposed *Sunland Park Drive/Futurity Drive Intersection Improvements* project serves an important local and regional transportation function by improving mobility, safety, and system connectivity along a roadway corridor that supports residential neighborhoods, schools, commercial activity, and regional travel movements. The project is intended to enhance an existing transportation facility and improve operational performance, multimodal access, and traffic safety within the existing roadway network. The project is not anticipated to create significant new regional travel demand and is expected to function as an improvement to existing transportation infrastructure.
