NMDOT District 1
2912 E. Pine Street
Deming, NM 88030

Dear Mr. Chavarria:

Enclosed is the TIP page for inclusion into the 2024-2027 STIP, Amended RMS 2050 MTP, and the RMS 2025-2028 TIP. The Transportation Policy Board (TPB) approved the amendments at their April 25, 2025 and June 20, 2025 meetings.

1. Deprogram *Calle Morroco Sidewalk Improvements Construction* project (CN: E100460 / MPO ID: E608X) using \$103,249 of NM Transportation Alternative Large Urban (TAP-L) funds in FY 2025.
2. Amend the *NM 213 / NM 404 Interchange Improvements* project (CN: E100322 / MPO ID: B608X) to reduce Surface Transportation Program – Flex (STPF) funds from \$3,435,374 to \$0, reduce Fast Border State INFRA (SBSI) funds from \$2,772,895 to \$122,112, reduce National Highway Performance Program (NHPP) funds from \$8,916,029 to \$8,210,871, increase National Highway Freight Program (NHFP) funds from \$13,914,485 to \$13,914,486; reduce construction phase costs from \$76,038,784 to \$68,997,469, and add \$250,000 for a Right of Way phase for a reduced total project cost of \$69,247,469 in FY 2025.
3. Amend the *NM 213 Widening* project (CN: E100321 / MPO ID: P621X-CAP) to increase National Highway Performance Program (NHPP) funds from \$10,702,337 to \$18,706,586, increase (STPF) funds from \$3,620,906 to \$5,059,052, increase Fast Border State INFRA (SBSI) funds from \$2,772,894 to \$5,423,676, add \$2,900,748 of Surface Transportation Program – Rural (STPR) funds; increase construction phase costs from \$41,570,937 to \$56,314,862, and add \$250,000 for a Right of Way phase for an increased total project cost of \$56,564,862 in FY 2025.
4. Program the *Microtransit Operating Assistance (FY 25 5307)* project (CN: TE00000 / MPO ID: T617A) (Apportionment 2025) using \$150,000 of FTA 5307 Urbanized Area Formula funds in fiscal year (FY) 2026.

5. Program the *Preventative Maintenance (FY25 5307)* project (CN: TE00010 / MPO ID: T617B) (Apportionment 2025) using \$556,000 of FTA 5307 Urbanized Area Formula funds in FY 2026.
6. Program the *Microtransit Capital Assistance (FY25 5307)* project (CN: TE00020 / MPO ID: T617C) (Apportionment 2025) using \$100,000 of FTA 5307 Urbanized Area Formula funds in fiscal year FY 2026.
7. Program the *Sunland Park Garage Updates (FY25 5307)* project (CN: TE00030 / MPO ID: T617D) (Apportionment 2025) using \$216,000 of FTA 5307 Urbanized Area Formula funds in FY 2026.
8. Program the *Sunland Park Fencing Update (FY25 5307)* project (CN: TE00040 / T617E) (Apportionment 2025) using \$96,000 of FTA 5307 Urbanized Area Formula funds in FY 2026.
9. Program the *Sunland Park Bus Wash (FY25 5307)* project (CN: TE00050 / MPO ID: T617F) (Apportionment 2025) using \$102,954 of FTA 5307 Urbanized Area Formula funds in FY 2026.

Please refer to project amendment history within TIP pages for previous amendment information. This revision is consistent with the current air quality conformity determination.

If you have any questions or concerns, please feel free to contact me at 915-212-0258.

Sincerely,

Eduardo Calvo, AICP
Executive Director

El Paso Metropolitan Planning Organization

**PUBLIC INVOLVEMENT FOR PROJECTS INCLUDED IN THE JUNE 2025 STIP REVISION FOR
INCLUSION IN THE 2024-2027 STIP**

The amendments submitted for the June 2025 STIP Revision include the following projects.

- **Transit Projects:**

- Calle Morroco Sidewalk Improvements Construction Project
- NM 213/404 Interchange Improvements
- NM 213 Widening Project
- Microtransit Operating Assistance (FY 25 5307)
- Preventative Maintenance (FY25 5307)
- Microtransit Capital Assistance (FY25 5307)
- Sunland Park Garage Updates (FY25 5307)
- Sunland Park Fencing Update (FY25 5307)
- Sunland Park Bus Wash (FY25 5307)

These projects were included in the 7-day public comment period completed for the April and June 2025 TPB meetings. The 7-day public comment period was posted to the EPMPO website as a banner alert and news post on the main page. The alert and news post provided the announcements below. These announcements include information on the amendment to the MPO's documents and the backup documentation provided at the Transportation Project Advisory Committee meeting.

No comments were received for the project during the 7-day comment period.

APPENDIX: PERFORMANCE BASED PLANNING & PROGRAMMING

This page intentionally left blank

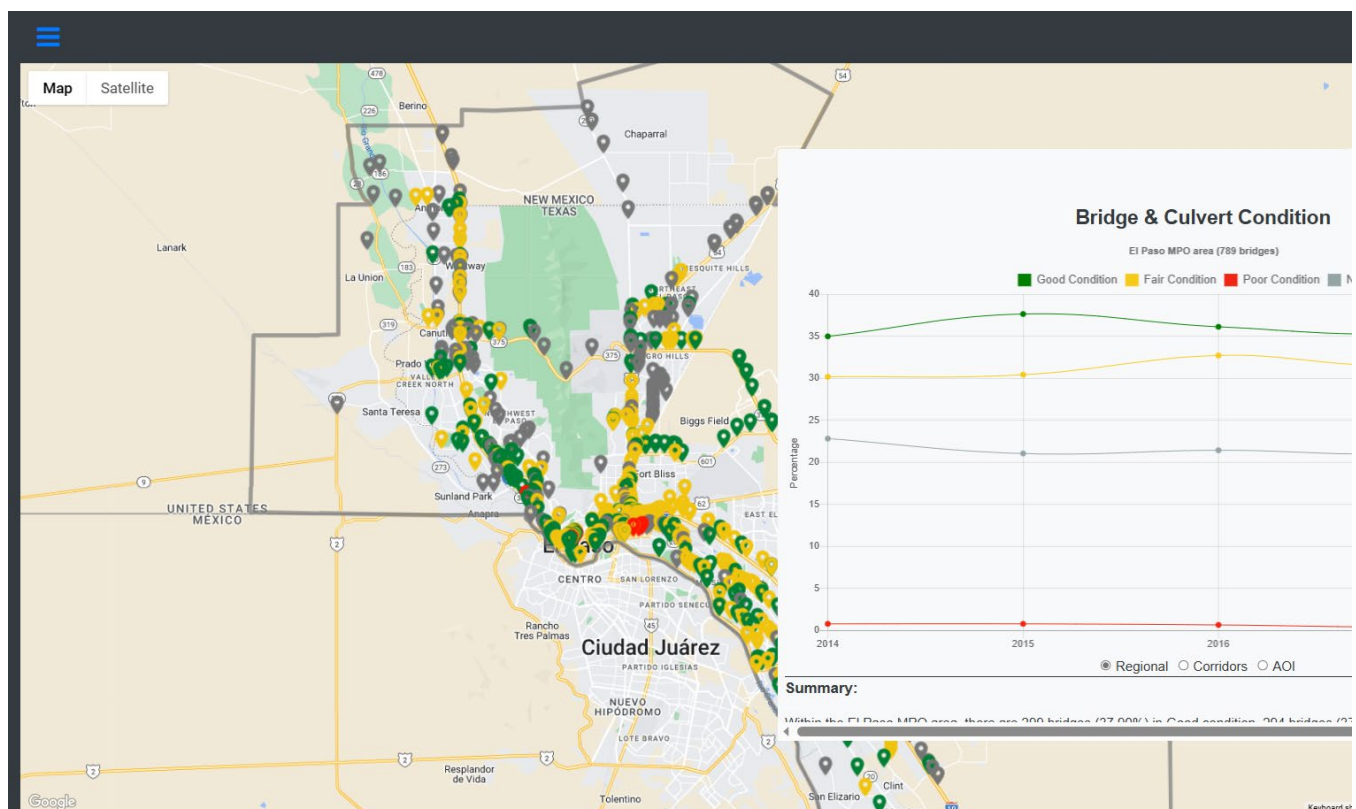

PERFORMANCE MEASURES

Measuring and tracking the performance of the region's transportation system is a fundamental component of the RMS 2050 MTP and the performance-based planning process. Performance measurement allows planners to assess the current state of the system to develop recommendations for improvements, evaluate the effectiveness of recently implemented improvements, and forecast the effectiveness of planned improvements. The EPMPPO monitors two kinds of performance as part of its performance-based planning efforts: Observed Performance and Forecasted or Modeled Performance.

Observed Performance: Performance is measured based on information from various sources (national, state, local) and reported via a web-based application tool developed for geospatial visualization of performance of the transportation network. This webtool can be found at <https://www.elpasompo.org/Links> through the "EPMPPO Performance Measures Tool" link.

The objectives of the Web Tool are:

- To track transportation performance over time
- To support identification of gaps in infrastructure across transportation modes
- To provide performance-based information for planning and programming decisions and
- To be a resource for local planning partners and general public.

The Multimodal Web Tool shows performance of transportation networks in the El Paso region captured by multimodal performance measures that were identified from Destino 2045 Metropolitan Transportation Plan (2018), Congestion Management Process (2013), and FHWA National Performance Measures (2017), and based on available local, state, and national data.

Forecasted or Modeled Performance: Using EPMPO's TDM, planners can forecast the performance of the region's transportation system, considering both planned system improvements and forecasted demographics. Performance-based planning using these measures was initiated with the development of the previous MTP (Destino 2045 MTP), and additional measures have been incorporated as part of the development of the RMS 2050 TDM and the reporting output summary has been improved.

A System Level Performance Evaluation is presented in Chapter 5 of the RMS 2050 MTP. Based on the adopted series of performance measures, the system level evaluation of the proposed projects compared the performance measures calculated for the 2017 Base Year and 2050 "No Build" Scenarios to the performance of the 2050 "Build" Scenario.

In general, the Build Scenario improves on almost every performance measure when compared to the No-Build scenario, although there is a moderate increase in the total and per-capita VMT (and subsequently a modest increase in the estimated average trip cost).

The complete results of the scenario analysis and performance measure comparison table are presented in page 5-21 of the RMS 2050 MTP.

NATIONAL PERFORMANCE REQUIREMENTS

Federal legislation passed in 2012 introduced a new requirement to incorporate a performancebased approach into the transportation planning process. The federal transportation bill Moving Ahead for Progress in 21st Century Act (MAP-21) required state Departments of Transportation, MPOs, and transit authorities to set coordinated targets, report on a required set of performance measures, and prioritize projects using a coordinated performance-based planning process. These performance requirements were continued and bolstered by the Fixing America's Surface Transportation (FAST) Act, which was signed into law in 2015.

The federal performance measures fall into three main categories—safety, maintenance, and performance. Safety measures track highway and transit deaths and injuries and include transit incidents like fires or crashes. Maintenance measures look at the age of transit fleets and the condition of roads and bridges. System performance measures look at highway congestion and reliability, freight movement, and environmental sustainability, including air quality.

TABLE 1: FEDERAL PERFORMANCE MEASURE CATEGORIES

| | |
|---------------------------|---|
| Safety | Highway Safety |
| | Transit Safety (Public Transportation Agency Safety Plan) |
| Maintenance | Highway Pavement and Bridge Conditions |
| | Transit Asset Management (TAM) |
| System Performance | National Highway System (NHS) Congestion |
| | Freight |
| | Congestion Management and Air Quality (CMAQ) Program |

Federal performance measure final rules establish deadlines for target setting and reporting for each of the required performance measures. For the measures identified in each final rule, MPOs are required to adopt targets and baseline performance measures, and to report progress toward achieving the targets in Regional Performance adopted two years after the effective date of the final rule. The five performance measures' final rules currently effective were established at different times, and therefore have different target-setting and implementation deadlines, as seen in Table 2 below. At the adoption date of RMS 2050 MTP, all five performance measure rules are effective, and the adoption of official targets is required and must be reported

TABLE 2: SUMMARY OF IMPLEMENTATION TIMELINES

| FINAL RULE | FINAL RULE EFFECTIVE DATE | TARGET SETTING DEADLINE | | | REQUIRED TO BE INCLUDED IN MTP BY | REPORTING PERIOD | REPORTING SCHEDULE |
|--|---------------------------|-------------------------|-------------------------------------|------------|-----------------------------------|--|-------------------------------|
| | | STATE DOT | TRANSIT PROVIDER | MPO | | | |
| PM 1: Safety | 4/14/2016 | 8/31/2017 | - | 2/16/2018 | 5/27/2018 | Annually | Annually |
| PM 2: Infrastructure | 5/20/2017 | 5/20/2018 | - | 11/16/2018 | 5/20/2019 | 2-and 4-year performance period | Biannually (2018, 2020, etc.) |
| PM 3: System Performance | | | | | | | |
| Transit Asset Management (TAM) | 10/1/2016 | 10/1/2017 | - | 12/27/2017 | 10/1/2018 | Complete updated TAM Plan by Oct 2022 | |
| Public Transportation Agency Safety Plan (PTSAP) | 7/19/2018 | - | 07/20/2020 (extended to 12/31/2020) | 1/20/2021 | 7/20/2021 | Updated and certified by transit agency annually | |

REQUIRED PERFORMANCE MEASURES AND TARGETS

A summary of the required National Performance Measures aligned with the seven National Goals is presented below in Table 3. The EPMPO has adopted targets set by the states (TxDOT and NMDOT) for all National Performance Measures. This section summarizes the adopted targets for each of the measures and provides a performance target assessment. Certain performance measures may be updated on an annual basis.

TABLE 3: NATIONAL GOALS AND METRICS

| NATIONAL GOAL | NATIONAL PERFORMANCE MEASURE(S) | |
|--------------------------------------|---|--|
| Safety | - Fatalities (# and rate) | |
| | - Serious injuries (# and rate) | |
| | - Number of non-motorized fatalities and serious injuries | |
| Infrastructure Condition | - % of Interstate pavements in Good & Poor condition | <i>National Highway System = NHS</i> |
| | - % of non-Interstate NHS pavements in Good & Poor condition | |
| | - % of NHS bridges classified as in Good & Poor condition | |
| Congestion Reduction | - Annual hours of PHED per capita | <i>Peak Hour Excessive Delay = PHED</i> |
| | - % Non-SOV Travel | |
| System Reliability | - % of PMT on the Interstate that are reliable | <i>Passenger Miles Traveled = PMT</i> |
| | - % of PMT on non-Interstate that are reliable | |
| Freight Movement & Economic Vitality | - TTTR Index on the Interstate System | <i>Truck Travel Time Reliability Index = TTTRI</i> |
| Environmental Sustainability | - % Change in CO2 Emissions on NHS Compared to Calendar year 2017 | |
| Reduced project delivery delays | - No national measures in current legislation | |

SAFETY (PM1)

State Targets adopted by the EPMPO Transportation Policy Board for previous fiscal years up to the most recently adopted targets in FY 2024 are presented in the tables below for Texas and New Mexico respectively (Table 4 and Table 5).

TABLE 4: SAFETY – TEXAS STATE TARGETS BY CALENDAR YEAR

| PM1: SAFETY | 2020 | 2021 | 2022 | 2023 | 2024 |
|---|--------|---------|--------|--------|--------|
| Number of fatalities | 3,840 | 3,687 | 3,563 | 3,682 | 3,046 |
| Rate of fatalities | 1.406 | 1.33 | 1.27 | 1.38 | 1.14 |
| Number of serious injuries | 17,394 | 17,151 | 16,677 | 17,062 | 17,062 |
| Rate of serious injuries | 6.286 | 6.06 | 5.76 | 6.39 | 6.39 |
| Number of non-motorized fatalities and serious injuries | 2,285 | 2,346.4 | 2,367 | 2,357 | 2,357 |

TABLE 5: SAFETY – NEW MEXICO STATE TARGETS BY CALENDAR YEAR

| PM1: SAFETY | 2020 | 2021 | 2022 | 2023 | 2024 |
|---|---------|---------|---------|-------|---------|
| Number of fatalities | 401.9 | 411.6 | 421.9 | 446.6 | 450.0 |
| Rate of fatalities | 1.429 | 1.486 | 1.645 | 1.695 | 1.689 |
| Number of serious injuries | 1,074.2 | 1,030.5 | 1,030.5 | 995.4 | 1,018.6 |
| Rate of serious injuries | 3.820 | 3.722 | 3.842 | 3.801 | 3.800 |
| Number of non-motorized fatalities and serious injuries | 204.0 | 200.0 | 190.6 | 199.4 | 200.0 |

On January 19, 2024, the Transportation Policy Board approved a resolution to support the updated 4-year target (previously adopted January 20, 2023), for both Texas Department of Transportation (TxDOT) and the New Mexico Department of Transportation (NMDOT).

By agreeing to support the states' HSIP targets, the EPMPO agrees to:

- Work with the states and safety stakeholders to address areas of concern for fatalities or serious injuries within the metropolitan planning area.
- Coordinate with the states and include the safety performance measures and the states' HSIP targets for those measures in the long-range regional transportation plan (RTP).
- Integrate into the metropolitan transportation planning process, the safety goals, objectives, performance measures and targets described in other state safety transportation plans and processes such as applicable portions of the HSIP, including the SHSP.
- Include a description in the TIP (Transportation Improvement Program) of the anticipated effect of the TIP toward achieving HSIP targets in the RTP, linking investment priorities in the TIP to those safety targets.

ANALYSIS OF TRANSPORTATION IMPROVEMENT PROGRAM (TIP) FY 2023 – FY 2026; SAFETY PROJECTS

Several projects programmed in the RMS 2050 MTP and the 2023-2026 TIP have been identified to have a safety element as part of the project selection criteria which includes a section based on safety and thus help work towards the safety targets. These projects include:

- Border Highway West Shared Use Path between Racetrack and Executive Center. The project includes installation of an 11-foot asphalt pavement hike and bike trail with irrigated landscaping.
- Buffalo Soldier Street Improvements from Edgemere Blvd to Montana Ave. The project includes complete roadway reconstruction, parkway improvements, sidewalks, bicycle facilities, street illumination, landscaping and irrigation and striping.
- Carolina Street Improvements from Stiles Dr to North Loop Dr. The project includes complete roadway reconstruction, parkway improvements, bicycle facilities, street illumination and striping on Carolina Dr. from Stiles Dr. to North Loop Dr.
- Dilley Road and Delake Street Construction. The project includes construction of two roadways, each with two lanes, enhanced pedestrian facilities, bike lanes and illumination to provide access to the Horizon City Transit Oriented Town Center.
- Downtown Bicycle Improvements. Construct bike facilities downtown to include: buffered bike lanes, conventional bike lanes, bike boulevards, shared lane markings, & protected bike lanes. The project will include road diets, associated signage, wayfinding, striping, & intersection treatments.
- Dyer Pedestrian Sidewalk Improvements from Gateway Boulevard North to Hercules Ave. Project includes sidewalk improvements to pedestrian connectivity and accessibility on Dyer St from Gateway to Hercules Ave. Improves access to BRIO stations at Dyer and Hercules.
- Horizon at Darrington Intersection Improvements. The Project includes intersection & operational improvements consisting of left and right turn lanes, directional islands and medians as well as traffic signal improvements.
- Interstate Highway 10 Frontage Road Extension from Executive Blvd. to Sunland Park Dr. The project includes construction of 2-lane westbound frontage road and frontage road improvements.
- Operational Improvements at SH 178 interchange. The project includes interchange improvements to include grade separation(s), rebuild I-10 overpass, U-turns, 4 direct connectors (DC).
- US 62/180 (Montana Ave.) Expressway & Frontage Roads. Project will construct 6-lane expressway and grade separations at intersections from Tierra Este Rd to FM 659 (Zaragoza Rd). In addition, the project will build 2 lane WB/EB FRs in each direction from Tierra Este Rd to FM 659 Zaragoza Rd. and will include auxiliary lanes and grade separation at intersection. Work includes drainage, advanced signing, striping, transitional and incidental work (operation improvements) up to FM 659 (Zaragoza Rd).
- Valley Chile Rd. Reconstruction from Doniphan Dr. to IH-10. The project includes the reconstruction of roadway with sidewalks, drainage, lighting and illumination, landscaping, and irrigation.
- Ysleta POE Pedestrians Safety Improvements. The project includes the design and construction of pedestrian safety improvements; pedestrian drop-off/pick-up zones, shade canopies, improved

crosswalks, pedestrian illumination, signs, signals, traffic calming, streetlights, landscaping, seating, screening walls, CCTVs, bus stop, and wayfinding.

- NM 273/Airport Rd. Intersection lighting. The project will install luminaries at intersection NM 273/Airport Road.
- NM 213 widening from NM 404 to TX State Line. The project will widen NM 213 from 2 to 4 lanes.

SUMMARY OF STATE SAFETY (PM1) PERFORMANCE MEASURES AND TARGETS FOR TXDOT AND NMDOT

The following provides a summary of the Highway Safety Improvement Program's (HSIP) safety performance measures and State safety performance targets. State DOTs and MPOs are expected to establish and report Safety performance measure targets annually. The safety performance targets should be data-driven, realistic, and attainable, and should align with the performance management framework and legislative intent.

TxDOT (PM1) TRENDS AND TARGETS

TxDOT has set more aggressive fatality and fatality rate reduction targets for 2020 and beyond, in response to the Texas Transportation Commission's adoption of the goal of reaching zero fatalities on Texas roads by the year 2050. To decrease the expected rise of fatalities to no more than five-year average of 3,567 fatalities in 2024. TxDOT adopted the calendar year target for 2024 as 3,046 fatalities.

FIGURE 1: NUMBER OF FATALITIES IN TEXAS

To decrease the expected rise of fatalities per 100 MVMT to not more than a five-year average of 1.36 fatalities per 100 MVMT in 2024. TxDOT’s adopted calendar year target for 2024 would be 1.14 fatalities per 100 MVMT.

FIGURE 2: FATALITY RATE (PER 100 MILLION VMT) IN TEXAS

To decrease the expected rise of serious injuries to not more than a five-year average of 17,062 fatalities in 2024. The calendar year target for 2024 would be 18,242 serious injuries. The 2024 Target expressed as 5-year avg. remains 17,062.

FIGURE 3: NUMBER OF SERIOUS INJURIES IN TEXAS

The calendar year target for Rate of serious injuries for 2024 would be 6.77 serious injures per 100 MVMT. The five-year average increases to 6.64 but based on the BIL requirements the targets are to remain the same or decrease from the previous years. The 2024 Target expressed as 5-year avg. remains 6.39.

FIGURE 4: RATE OF SERIOUS INJURIES (per 100 million VMT) IN TEXAS

To decrease the expected rise of non-motorized fatalities and serious injuries to not more than a five-year average of 2,357 fatalities and serious injuries in 2024. The five-year average increase to 2,371 but based on the BIL requirements the targets are to remain the same or decrease from the previous years. The 2024 Target expressed as 5-year avg. remains 2,357.

FIGURE 5: NUMBER OF NON-MOTORIZED FATALITIES AND SERIOUS INJURIES IN TEXAS

TABLE 6: TEXAS - SAFETY PERFORMANCE TARGET ASSESSMENT

| Performance Measure | Desired Trend | Original Targets 2018-2022 | Baseline ¹ 2018-2022 | New Targets 2023 | New Targets 2024 |
|---|---------------|----------------------------|---------------------------------|------------------|------------------|
| Number of Fatalities | ↓ | 3,734 | 3950.2 | 3,682 | 3,046 |
| Fatality Rate (per 100 million VMT) | ↓ | 1.27 | 1.438 | 1.38 | 1.14 |
| Number of Serious Injuries | ↓ | 16,677 | 16,441 | 17,062 | 17,062 |
| Rate of Serious Injuries (per 100 million VMT) | ↓ | 5.76 | 5.968 | 6.39 | 6.39 |
| Number of Non-Motorized Fatalities and Serious Injuries | ↓ | 2,367 | 2,365.6 | 2,357 | 2,357 |

¹Baseline is the actual 5y Average.

Baseline numbers colored in red means the target was not met.

Baseline numbers colored in green means the target was met.

NMDOT (PM1) TRENDS AND TARGETS

In setting the 2024 safety targets, NMDOT's method will now hold steady or show declining targets for fatalities and serious injuries for the three-year period.

FIGURE 6: NUMBER OF FATALITIES IN NEW MEXICO

Baseline numbers colored in red means the target was not met.

Baseline numbers colored in green means the target was met

INFRASTRUCTURE CONDITION (PM2)

Texas state targets for Infrastructure Condition adopted by the EPMPPO Transportation Policy Board are presented in the Table 8. 2-year and 4-year targets for FY 2024 and FY 2026 were adopted on May 19, 2023.

TABLE 8: INFRASTRUCTURE CONDITION – TEXAS STATE TARGETS

| PM2: INFRASTRUCTURE CONDITION | Baseline | 2-Yr Target | 4-Yr Target |
|--|----------|-------------|-------------|
| | 2022 | 2024 | 2026 |
| Percent of Pavements of the Interstate System in Good Condition | 64.5% | 63.9% | 63.6% |
| Percent of Pavements of the Interstate System in Poor Condition | 0.1% | 0.2% | 0.2% |
| Percent of Pavements of the Non-Interstate NHS in Good Condition | 51.7% | 45.5% | 46.0% |
| Percent of Pavements of the Non-Interstate NHS in Poor Condition | 1.3% | 1.5% | 1.5% |
| Percent of NHS Bridges Classified as in Good Condition | 49.2% | 48.5% | 47.6% |
| Percent of NHS Bridges Classified as in Poor Condition | 1.1% | 1.5% | 1.5% |

The New Mexico state 2-year and 4-year targets for FY 2023 and FY 2025 were adopted by the Transportation Policy Board on May 19, 2023. (Table 9).

TABLE 9: INFRASTRUCTURE CONDITION – NEW MEXICO STATE TARGETS

| PM2: INFRASTRUCTURE CONDITION | Baseline | 2-Yr Target | 4-Yr Target |
|--|----------|-------------|-------------|
| | 2021 | 2023 | 2025 |
| Percent of Pavements of the Interstate System in Good Condition | 54.0% | 42.7% | 37% |
| Percent of Pavements of the Interstate System in Poor Condition | 1.7% | 3.2% | 3.8% |
| Percent of Pavements of the Non-Interstate NHS in Good Condition | 36.7% | 40.6% | 37.4% |
| Percent of Pavements of the Non-Interstate NHS in Poor Condition | 2.6% | 3.2% | 3.9% |
| Percent of NHS Bridges Classified as in Good Condition | 36.2% | 30.8% | 32.9% |
| Percent of NHS Bridges Classified as in Poor Condition | 2.4% | 4.1% | 5.5% |

By agreeing to support the PM2 states' targets the El Paso MPO agrees to:

- Work with the states and relevant stakeholders to address areas of concern for pavement and bridge condition within the metropolitan planning area.
- Coordinate with the states and include the infrastructure condition targets for those measures in the long-range regional transportation plan (MTP).
- Integrate into the metropolitan transportation planning process, the infrastructure goals, objectives, performance measures and targets described in other state transportation plans and processes.
- Include a description in the TIP (Transportation Improvement Program) of the anticipated effect of the TIP toward achieving pavement and bridge condition targets in the MTP, linking investment priorities in the TIP to those infrastructure condition targets.

ANALYSIS OF TRANSPORTATION IMPROVEMENT PROGRAM (TIP) FY 2023 – FY 2026; INFRASTRUCTURE CONDITION PROJECTS

Several projects programmed in the RMS 2050 MTP and the 2023-2026 TIP have been identified to have an infrastructure condition element as part of the project selection criteria and thus help work towards maintaining the highway infrastructure asset system in a state of good repair. These projects include:

- Horizon at Darrington Intersection Improvements. The Project includes intersection & operational improvements consisting of left and right turn lanes, directional islands and medians as well as traffic signal improvements.
- US 62/180 (Montana Ave.) Expressway & Frontage Roads. Project will construct 6-lane expressway and grade separations at intersections from Tierra Este Rd to FM 659 (Zaragoza Rd). In addition, the project will build 2 lane WB/EB FRs in each direction from Tierra Este Rd to FM 659 Zaragoza Rd. and will include auxiliary lanes and grade separation at intersection. Work includes drainage,

advanced signing, striping, transitional and incidental work (operation improvements) up to FM 659 (Zaragoza Rd).

- NM 213 widening from NM 404 to TX State Line. The project will widen NM 213 from 2 to 4 lanes.

SUMMARY OF STATE INFRASTRUCTURE CONDITION PERFORMANCE MEASURES AND TARGETS FOR TXDOT AND NMDOT

The information below summarizes the Highway Infrastructure performance measures, which include four pavement condition measures and two bridge condition measures. Per 23 CFR 490, State Departments of Transportation (DOTs) are required to establish 2- and 4-year targets for these measures. The targets should represent the anticipated condition/performance at the mid-point and end of the 4-year performance period.

State DOTs establish targets at the beginning of each 4-year performance period, and report on progress every two years. When establishing targets, State DOTs have the flexibility to use the methodology they deem most appropriate. FHWA encourages States to review data sets and trends and consider factors that may affect targets. Performance targets should be data-driven, realistic, and attainable and should align with the performance management framework and legislative intent.

TxDOT (PM2) TRENDS AND TARGETS

Interstate pavements are evaluated based on International Roughness Index (IRI) and pavement surface distress (Rutting, Faulting and Cracking Percent).

For Non-Interstate NHS system pavements there was a transition provision due to the existing pavement data collection cycles. For the first performance period DOTs had the option to set the target based on IRI only or IRI and other surface distresses. Moving forward, TxDOT will be using all distress measures as required by FHWA. However, for the first performance period, TxDOT set the targets using the IRI measure only.

TABLE 10: SUMMARY OF PAVEMENT MEASURES TRENDS IN TEXAS

| Highway | Performance Measure | 2019 | 2020 | 2021 | 2022 |
|--------------|---------------------|-------|-------|-------|-------|
| IH | Good | 65.7% | 66.6% | 65.8% | 64.5% |
| | Poor | 0.2% | 0.1% | 0.1% | 0.1% |
| Non-IH (NHS) | Good (IRI* Only) | | 55.2% | 54.5% | 57.8% |
| | Good | 46.8% | 49.2% | 48.5% | 51.7% |
| | Poor (IRI* Only) | | 13.5% | 13.7% | 11.6% |
| | Poor | 1.2% | 1.4% | 1.3% | 1.3% |

For the percent of NHS Bridges classified as in good condition, TxDOT acknowledges the fact that the percent of bridges continue to be on a downward trend and that trend is expected to continue in the short term. TxDOT has renewed its efforts in pursuing more maintenance activities (preservation and

rehabilitation) for bridges and tracking those activities, but the results of those efforts may not be seen in the data for a few years.

For the percent of NHS Bridges classified as in poor condition, TxDOT has a few large deck area bridges that are in fair condition and close to turning to poor condition. A consequence of having such low percent of poor bridges turning poor can have a noticeable impact on the percent poor.

FIGURE 10: PERCENT OF NHS BRIDGES CLASSIFIED AS IN GOOD CONDITION IN TEXAS

FIGURE 11: PERCENT OF NHS BRIDGES CLASSIFIED AS IN POOR CONDITION IN TEXAS

TABLE 11: TEXAS- 2022 INFRASTRUCTURE PERFORMANCE TARGET ASSESSMENT

| Performance Measure | Desired Trend | Original Targets (Revised 2021) | | Baseline (2022) | New Targets Forecast/Trend | |
|--|---------------|---------------------------------|--------|-----------------|----------------------------|-------|
| | | 2020 | 2022 | | 2024 | 2026 |
| Percent of IH Pavements in Good Condition | ↑ | -- | 66.5% | 64.5% | 63.9% | 63.6% |
| Percent of IH Pavements in Poor Condition | ↓ | -- | 0.2% | 0.1% | 0.2% | 0.2% |
| Percent of Non-IH (NHS) Pavements in Good Condition (IRI Only) | ↑ | 52% | 54.1% | 57.8% | | |
| Percent of Non-IH (NHS) Pavements in Good Condition | ↑ | -- | -- | 51.7% | 45.5% | 46% |
| Percent of Non-IH (NHS) Pavements in Poor Condition (IRI Only) | ↓ | 14.3% | 14.2% | 11.6% | | |
| Percent of Non-IH (NHS) Pavements in Poor Condition | ↓ | -- | -- | 1.3% | 1.5% | 1.5% |
| NHS Bridges – Good | ↑ | 50.60% | 50.40% | 49.2% | 48.5% | 47.6% |
| NHS Bridges – Poor | ↓ | 0.80% | 1.50% | 1.1% | 1.5% | 1.5% |

Baseline numbers colored in red means the target was not met.

Baseline numbers colored in green means the target was met

NMDOT (PM2) TRENDS AND TARGETS

NMDOT established the targets based on anticipated future revenue for the next ten years. All distresses and IRI were used for the first performance period as well as the second performance period targets. The future condition is based on data collected during calendar years 2016-2021 and predicting condition for calendar years 2022 through 2031. Tables 12 and 13 show the collected data for years 2018-2021.

TABLE 12: SUMMARY OF PAVEMENT MEASURES TRENDS IN NEW MEXICO

| Highway | Performance Measure | 2018 | 2019 | 2020 | 2021 |
|--------------|---------------------|------|------|------|------|
| IH | Good | 70.8 | 55 | 56.4 | 54 |
| | Poor | 0.3 | 0.9 | 1.2 | 1.7 |
| Non-IH (NHS) | Good | -- | 35.8 | 38.9 | 36.7 |
| | Poor | -- | 2.5 | 2.5 | 2.6 |

TABLE 13: SUMMARY OF BRIDGE MEASURES TRENDS IN NEW MEXICO

| Performance Measure | 2018 | 2019 | 2020 | 2021 |
|---------------------|------|-------|-------|-------|
| NHS Bridges - Good | 38% | 37.6% | 36.8% | 36.2% |
| NHS Bridges - Poor | 3.1% | 3.1% | 2.9% | 2.4% |

TABLE 14: NEW MEXICO - 2022 INFRASTRUCTURE PERFORMANCE TARGET ASSESSMENT

| Performance Measure | Desired Trend | Original Targets (4yr Revised 2020) | | Baseline (2021) | New Targets Forecast/Trend | |
|---|---------------|-------------------------------------|--------|-----------------|----------------------------|-------|
| | | 2019 | 2021 | | 2023 | 2025 |
| Percent of IH Pavements in Good Condition | ↑ | -- | 55.0% | 54.0% | 42.7% | 37% |
| Percent of IH Pavements in Poor Condition | ↓ | -- | 5.00% | 1.7% | 3.2% | 3.8% |
| Percent of Non-IH (NHS) Pavements in Good Condition | ↑ | 35.6% | 34.20% | 36.7% | 40.6% | 37.4% |
| Percent of Non-IH (NHS) Pavements in Poor Condition | ↓ | 9% | 12.00% | 2.6% | 3.2% | 3.9% |
| NHS Bridges – Good | ↑ | 36% | 30% | 36.2% | 30.8% | 32.9% |
| NHS Bridges – Poor | ↓ | 3.3% | 3.3% | 2.4% | 4.1% | 5.5% |

Baseline numbers colored in red means the target was not met.

Baseline numbers colored in green means the target was met

SYSTEM RELIABILITY MEASURES (PM3)

Texas state targets for system performance and freight adopted by the EPMPO Transportation Policy Board are presented in the Table 15. 2-year and 4-year targets for FY 2024 and FY 2026 were adopted on May 19, 2023.

TABLE 15: SYSTEM RELIABILITY – TEXAS STATE TARGETS

| PM3: SYSTEM RELIABILITY | Original Target | Baseline | 2-Yr Target | 4-Yr Target |
|-------------------------------|-----------------|----------|-------------|-------------|
| | (Revised 2021) | 2021 | 2024 | 2026 |
| Interstate Reliability | 70% | 84.6% | 70% | 70% |
| Non-Interstate Reliability | 70% | 90.3% | 70% | 70% |
| Truck Travel Time Reliability | 1.76 | 1.39 | 1.55 | 1.55 |

The New Mexico state 2-year and 4-year targets for FY 2023 and FY 2025 were adopted by the Transportation Policy Board on May 19, 2023. (Table 16).

TABLE 16: SYSTEM RELIABILITY – NEW MEXICO STATE TARGETS

| PM3: SYSTEM RELIABILITY | Original Target | Baseline | 2-Yr Target | 4-Yr Target |
|-------------------------------|-----------------|----------|-------------|-------------|
| | (Revised 2021) | 2021 | 2023 | 2025 |
| Interstate Reliability | 95.1% | 98.5% | 95.1% | 95.1% |
| Non-Interstate Reliability | 90.4% | 97.5% | 94.1% | 94.1% |
| Truck Travel Time Reliability | 1.15 | 1.23 | 1.30 | 1.30 |

By agreeing to support the System Performance & Freight (PM3) states' targets the El Paso MPO agrees to:

Continue implementation of policies and programs aimed at maximizing the existing system capacity, reducing demand through implementation of travel demand management strategies, and strategically adding new interstate capacity.

ANALYSIS OF TRANSPORTATION IMPROVEMENT PROGRAM (TIP) FY 2023 – FY 2026; SYSTEM PERFORMANCE & FREIGHT PROJECTS

Several projects programmed in the RMS 2050 MTP and the 2023-2026 TIP have been identified to have a system performance/freight element as part of the project selection criteria and thus work towards improving the efficiency of the surface transportation system to meeting the targets. These projects include:

- Horizon at Darrington Intersection Improvements. The Project includes intersection & operational improvements consisting of left and right turn lanes, directional islands and medians as well as traffic signal improvements.
- Interstate Highway 10 Frontage Road Extension from Executive Blvd. to Sunland Park Dr. The project includes construction of 2-lane westbound frontage road and frontage road improvements.
- ITS Infrastructure @ Zaragoza and Bridge of the Americas (BOTA) Port of Entry (POE) The project includes the design, construction, and installation of intelligent transportation systems (ITS) at the Bridge of the Americas (BOTA) and Zaragoza Ports of Entry.

- Railroad Dr. Widening and Reconstruction. Addition of one lane in each direction from Purple Heart Highway to Shrub Oak to increase capacity from two to four lanes. The project includes road rehabilitation and reconstruction of existing road from Purple Heart Highway to Shrub Oak Drive.
- Operational Improvements at SH 178 interchange. The project includes interchange improvements to include grade separation(s), rebuild I-10 overpass, U-turns, 4 direct connectors (DC).
- Spur 320 Borderland Expressway Phase I. Construct 2-lane Frontage Roads in each direction and Intersections between BU54 (Dyer) to Railroad Drive.
- Traffic Management Center Upgrade Phase 2-5. The project includes the upgrade of the City of El Paso (COEP) Traffic Management Center and Traffic Signal controller equipment citywide. Phase 1 is the design phase. Phase 2-5 are implementation and construction phases.
- US 62/180 (Montana Ave.) Expressway & Frontage Roads. Project will construct 6-lane expressway and grade separations at intersections from Tierra Este Rd to FM 659 (Zaragoza Rd). In addition, the project will build 2 lane WB/EB FRs in each direction from Tierra Este Rd to FM 659 Zaragoza Rd. and will include auxiliary lanes and grade separation at intersection. Work includes drainage, advanced signing, striping, transitional and incidental work (operation improvements) up to FM 659 (Zaragoza Rd).

SUMMARY OF STATE SYSTEM RELIABILITY MEASURES AND TARGETS FOR TXDOT AND NMDOT

The information below summarizes the Transportation Performance Management (TPM) System Reliability performance measures, which includes two highway reliability measures and one truck travel time reliability measure. Per 23 CFR 490, State DOTs are required to establish 2- and 4-year targets for these measures.

The targets should represent the anticipated condition/performance at the mid-point and end of the 4-year performance period. State DOTs establish targets at the beginning of each 4-year performance period, and report on progress every two years. When establishing targets, State DOTs have the flexibility to use the methodology they deem most appropriate. FHWA encourages States to review data sets and trends and consider factors that may affect targets. Performance targets should be data-driven, realistic, and attainable, and should align with the performance management framework and legislative intent.

TxDOT (PM3) TRENDS AND TARGETS

For the system performance and freight (PM3) targets for TxDOT, the data showed fluctuations that cannot be accounted for with other similar data. As such, consistency, trends, or new norms cannot be established after the analysis. It is anticipated that the COVID-19 pandemic had a great impact on the ability to see a trend, and the traffic “bounce-back” (i.e., new normal) from the pandemic is unknown, so a conservative approach was applied.

FIGURE 12: INTERSTATE RELIABILITY IN TEXAS

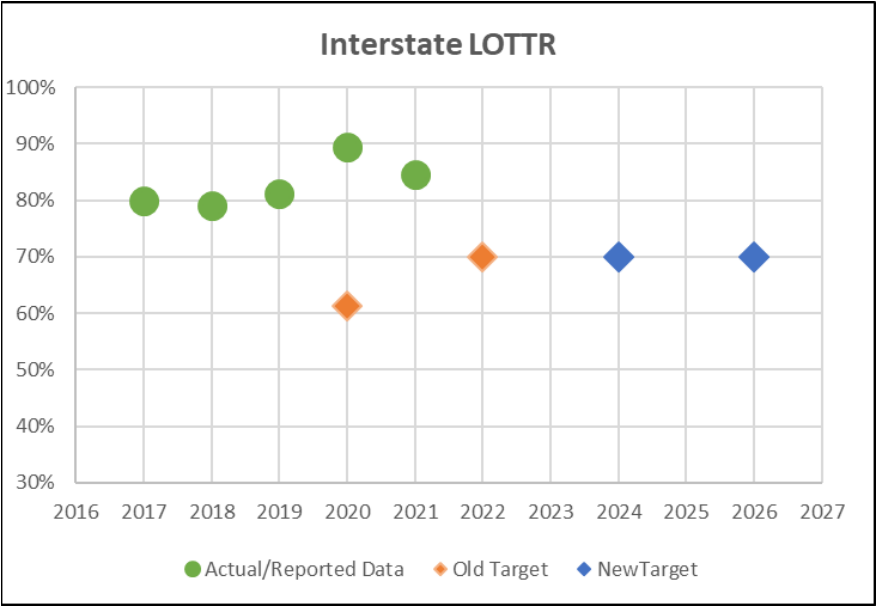

FIGURE 13: NON-INTERSTATE RELIABILITY IN TEXAS

FIGURE 14: TRUCK TRAVEL TIME RELIABILITY IN TEXAS

TABLE 17: TEXAS – SYSTEM RELIABILITY TARGET ASSESSMENT

| Performance Measure | Desired Trend | Original Targets (Revised 2021) | | Baseline ¹ (2021) | New Targets Forecast/Trend | |
|-------------------------------|---------------|---------------------------------|------|------------------------------|----------------------------|------|
| | | 2019 | 2022 | | 2024 | 2026 |
| Interstate Reliability | ↑ | 61.20% | 70% | 84.6% | 70% | 70% |
| Non-Interstate Reliability | ↑ | -- | 70% | 90.3% | 70% | 70% |
| Truck Travel Time Reliability | ↓ | 1.7 | 1.76 | 1.39 | 1.55 | 1.55 |

¹Baseline is the actual 5y Average.

Baseline numbers colored in red means the target was not met.

Baseline numbers colored in green means the target was met.

NMDOT (PM3) TRENDS AND TARGETS

For NMDOT, Interstate Reliability targets, the reliable actual performance assisted in NMDOT's decision to retain the prior target of 95.1% for both the 2- and 4-year targets. For Non-Interstate Reliability targets, the target is 1% less than the Interstate targets. NMDOT believes this represents an acceptable level of reliability and investment in reliability.

FIGURE 15: INTERSTATE RELIABILITY IN NEW MEXICO

FIGURE 16: NON-INTERSTATE RELIABILITY IN NEW MEXICO

FIGURE 17: TRUCK TRAVEL TIME RELIABILITY IN NEW MEXICO

TABLE 18: NEW MEXICO – SYSTEM RELIABILITY TARGET ASSESSMENT

| Performance Measure | Desired Trend | Original Targets (Revised 2021) | Baseline ¹ (2021) | New Targets Forecast/Trend | |
|-------------------------------|---------------|---------------------------------|------------------------------|----------------------------|-------|
| | | | | 2023 | 2025 |
| Interstate Reliability | ↑ | 95.1% | 98.5% | 95.1% | 95.1% |
| Non-Interstate Reliability | ↑ | 90.4% | 97.5% | 94.1% | 94.1% |
| Truck Travel Time Reliability | ↓ | 1.15 | 1.23 | 1.30 | 1.30 |

¹Baseline is the actual 5y Average.

Baseline numbers colored in red means the target was not met.

Baseline numbers colored in green means the target was met.

TRAFFIC CONGESTION & ON-ROAD MOBILE SOURCE EMISSIONS REDUCTION (CMAQ) PERFORMANCE MEASURES (PM3)

Nonattainment MPOs are required to establish targets and report progress for the performance measures related to the Congestion Mitigation and Air Quality (CMAQ) program as established in 23 CFR Part 490 (§ 490.707 and § 490.807) for on-road mobile source emissions. As of the effective date for pollutant target setting, the EPMPO was the only Carbon Monoxide (CO) and Particulate matter-10 (PM-10) nonattainment area in Texas and the only PM-10 and Ozone (NOx, VOC) nonattainment area in New Mexico. Methodologies and Emission Targets for these measures have been mutually agreed upon by EPMPO, TxDOT-Transportation Planning and Programming Division and NMDOT-Planning Division.

The effectiveness of the Congestion Mitigation and Air Quality Improvement Program is gauged by the following measures:

- Annual Hours of Peak Hour Excessive Delay Per Capita
- Percent of Non-SOV travel
- Total Emissions Reduction: Ozone (NOx, VOC)
- Total Emissions Reduction: Particulate Matter less than or equal to 10 microns (PM-10)
- Total Emissions Reduction: Carbon Monoxide (CO)

Unlike the other measures, the CMAQ traffic congestion measures initially only applied to urbanized areas of more than one million population, in all or part of a nonattainment or maintenance area for ozone, carbon monoxide or particulate matter. For the second performance period, the population threshold for the congestion measure dropped to 200,000. Therefore, this is the first time the EPMPO

is required to establish emission targets for the two traffic congestion measures. The second performance period for the two traffic congestion measures (PHED and Non-Single Occupancy Vehicle Travel, or SOV) began on January 1, 2022, and runs through December 31, 2025. (23 CFR 490.105 (e)(4)).

Traffic congestion and on-road mobile source emission reduction targets adopted by the EPMPO Transportation Policy Board on August 19, 2022 are presented below. The traffic congestion targets are presented in Tables 19 and On-Road Mobile Source Emission Targets are presented in Tables 20 and 21.

Given that there is currently no penalty associated with a failure to achieve PHED targets, and that EPMPO can adjust them at the mid-performance report (with the benefit of two more years of data), EPMPO is recommending the 4-8 p.m. peak period and therefore setting a target of no more than nine hours of peak hour excessive delay for the 2-year target, and then hours for the 4-year target as suggested by the analysis developed by the Texas A & M Transportation Institute (TTI).

For Non-SOV, the MPO is using the American Community Survey (ACS) to establish targets. Looking at the estimates provided by TTI, EPMPO proposes to set both the 2-year and 4-year targets at 20%. Using these targets, the goal for this performance period will be to maintain current mode shares. These targets can be adjusted when additional data is available at the mid-performance period report in two years.

TABLE 19: TRAFFIC CONGESTION TARGETS – EL PASO, TX-NM URBANIZED AREA

| PM3: TRAFFIC CONGESTION | 2022 Baseline Score | 2-Yr Target | 4-Yr Target |
|---|---------------------|-------------|-------------|
| | (2021 Actual) | 2023 | 2025 |
| Annual Hours of Peak Hour Excessive Delay (PHED) | 8.4 | 9 | 10 |
| Percent of Non-Single Occupancy Vehicle (Non-SOV) | 20.2% | 20% | 20% |

SUMMARY OF STATE ON-ROAD MOBILE SOURCE EMISSIONS REDUCTION MEASURES AND TARGETS FOR TXDOT AND NMDOT

The information below summarizes the Transportation Performance Management (TPM) On-Road Mobile Source Emissions Reductions performance measures.

The first performance period for the on-road mobile source emissions measure has been completed and was from October 1, 2017 through September 30, 2021. This second performance period is from October 1, 2021, and continues through September 30, 2025. The list of urban areas in the United States as defined by the United States Census Bureau, ordered according to their 2020 census populations ranks El Paso TX-NM as 23rd, with a population of 841,286. For this performance period

the EPMPO is not subject to 2-year targets or the requirement of a CMAQ Performance Plan its minimum population threshold of population of greater than 1 million.

Due to the applicability tables being released before the Ozone determination for El Paso County, EPMPO does not need to report Ozone emissions (VOC, NOX) for Texas for the Second Performance Period, only for the New Mexico which applies exclusively to Sunland Park, NM. For Texas, the Ozone emissions and targets will be reported for the Full Performance Period due Oct 1, 2026.

In order to establish the EPMPO emissions targets for the Texas portion of the MPO, EPMPO and Texas DOT established a methodology that compares CMAQ project emissions from the FHWA User Profile and Access Control System (UPACS) and the EPMPO Transportation Improvement Program (TIP) over the past 4-years to develop targets for the future 4-year CMAQ program.

TABLE 20: CMAQ – TEXAS STATE TARGETS

| PM3: TRAFFIC CONGESTION | Baseline | 2-Yr Target | 4-Yr Target |
|---|----------|-------------|-------------|
| | 2021 | 2023 | 2025 |
| Total Emissions Reduction: PM-10 (KG/DAY) | 5.42 | 4.54 | 8.90 |
| Total Emissions Reduction: CO (KG/DAY) | 216.50 | 175.75 | 367.10 |

New Mexico is included in the list of 42 State DOTs required to establish targets and report performance for On-road Mobile Source Emissions (Total Emissions Reduction measure for Criteria Pollutants). The measure is limited to nonattainment or maintenance areas, which in New Mexico applies exclusively to the Sunland Park, Anthony and Southern Doña Ana County area, which is within the El Paso MPO (EPMPO) planning area. Specifically, this area is in non-attainment for PM 10 and Ozone. For the Ozone non-attainment designation, EPMPO and NMDOT are required to establish targets and monitor performance for the two precursor pollutants – Nitrogen Oxide (NOx) and Volatile Organic Compounds (VOC).

The EPMPO coordinates with NMDOT on programming New Mexico CMAQ funds allocated to the EPMPO. It was, therefore, mutually agreed upon by NMDOT and the EPMPO to develop 4-year targets for applicable criteria pollutants – in this case PM 10, NOx and VOC- for the state of New Mexico by developing a benefit ratio analysis using the ratio of benefits reported in 2018 to those reported in 2021 for the Texas and New Mexico EPMPO portion and applying the ESTABLISHED emission targets for Texas (second performance period) to estimate future emissions targets in the New Mexico portion of the EPMPO planning area.

By using the Texas methodology as a base, EPMPO and NMDOT are making assumptions that the future (2 years and 4 years) NM CMAQ project (s) quantifiable emissions will be the same in NM as in TX based on type of projects, methodology used to quantify projects, data, assumptions, etc. This is not likely to be the case, but this methodology gives the EPMPO and NMDOT reasonable projections in order to set targets for this reporting period.

These targets and this methodology may be examined and additional data gathered at the mid-point of the performance period. At the time the 4-year target may be adjusted if more reliable data is available (23CFR Part 490 Subparts A, E, F, G & H). These quantifiable targets are reflective of the anticipated cumulative emission reductions for the EPMPO to be reported in the CMAQ Public Access System as required in 23 CFR 490.105 for establishing targets for MPOs.

TABLE 21: CMAQ – NEW MEXICO STATE TARGETS

| PM3: TRAFFIC CONGESTION | Baseline | 2-Yr Target | 4-Yr Target |
|---|----------|-------------|-------------|
| | 2022 | 2023 | 2025 |
| Total Emissions Reduction: PM-10 (KG/DAY) | 0.0071 | 0.0021 | 0.0041 |
| Total Emissions Reduction: VOC (KG/DAY) | 0.064 | 0.0108 | 0.0218 |
| Total Emissions Reduction: NOX (KG/DAY) | 0.120 | 0.0032 | 0.0060 |

ANALYSIS OF TRANSPORTATION IMPROVEMENT PROGRAM (TIP) FY 2023-2026; TRAFFIC CONGESTION & CMAQ PROJECTS

Several projects programmed in the RMS 2050 MTP and the 2023-2026 TIP have been identified as part of the project selection criteria to enhance the performance of the transportation system while protecting and enhancing the natural environment and thus work towards meeting the CMAQ targets. These projects include:

- Border Highway West Shared Use Path between Racetrack and Executive Center. The project includes installation of an 11-foot asphalt pavement hike and bike trail with irrigated landscaping.
- Downtown Bicycle Improvements. Construct bike facilities downtown to include: buffered bike lanes, conventional bike lanes, bike boulevards, shared lane markings, & protected bike lanes. The project will include road diets, associated signage, wayfinding, striping, & intersection treatments.
- Dyer Pedestrian Sidewalk Improvements from Gateway Boulevard North to Hercules Ave. Project includes sidewalk improvements to pedestrian connectivity and accessibility on Dyer St from Gateway to Hercules Ave. Improves access to BRIO stations at Dyer and Hercules.
- ITS Infrastructure @ Zaragoza and Bridge of the Americas (BOTA) Port of Entry (POE) The project includes the design, construction and installation of intelligent transportation systems (ITS) at the Bridge of the Americas (BOTA) and Zaragoza Ports of Entry.
- Montana RTS Operating Assistance The projects includes the operations for Montana RTS.

- **Regional Transit Start-Up Assistance** The project will establish Transit Service to provide a more efficient, single, seamless, transit system in El Paso County, Horizon City, Vinton, Anthony, San Elizario, Clint, and Socorro.
- **Traffic Management Center Upgrade Phase 2-5** The project included the upgrade of the COEP Traffic Management Center and Traffic Signal controller equipment citywide. Phase-1 is the design phase. Phase-2 to Phase-5 are implementation and construction phases.
- **Ysleta POE Pedestrian Safety Improvements** The project will design and construct pedestrian safety improvements; pedestrian drop-off/pick-up zones, shade canopies, improved crosswalks, pedestrian illumination, signs, signals, traffic calming, streetlights, landscaping, seating, screening walls, CCTVs, bus stop, and wayfinding.

TRANSIT ASSET MANAGEMENT (TAM)

On September 21, 2018 the Transportation Policy Board approved two new MPO Planning Memorandums of Understanding (MOU), one for Texas and one for New Mexico. The MOUs outline the roles and responsibilities of the states, the MPO, and the mass transit provider, Sun Metro, in carrying out the metropolitan transportation planning process and associated performance measures. Based on the federal performance measure final rule on Transit Asset Management (TAM) issued in July 2016, MPOs are required to coordinate with transit providers to set performance targets and integrate individual transit providers' performance targets and TAM plans into planning documents.

Initial targets were adopted in September 2018 in cooperation with local and state partners. In February 2023, The El Paso MPO Transportation Project Advisory Committee (TPAC) reviewed the existing plans and recommended that the El Paso MPO Transportation Policy Board (TPB) adopt an updated mixture of targets from TxDOT and Sun Metro for the El Paso MPO. These new targets include track segment performance, to reflect the opening of the El Paso Streetcar. Sun Metro may have agency-level targets that differ from the El Paso MPO adopted targets. These agency-level targets may better meet their needs in planning for state of good repair for Sun Metro. EPMPO will continue to coordinate with Sun Metro to report, track, and adjust the targets over time to meet the El Paso MPO targets.

TABLE 22: EL PASO TRANSIT ASSET MANAGEMENT 4 YEAR TARGETS

| TRANSIT ASSET MANAGEMENT | 2023 TARGET |
|--|-------------|
| % revenue vehicles at or exceeding useful life benchmark | <15% |
| % service vehicles (non-revenue) at or exceeding useful life benchmark | <15% |
| % facilities rated below 3 on condition scale (TERM) | <15% |
| % track segments with performance restrictions | >95% |

As part of the FAST Act, performance measures were incorporated for transit agencies, primarily through the Transit Asset Management (TAM) assessment and planning requirements. Sun Metro's TAM plan was developed to meet that requirement. Sun Metro continuously seeks grants through the regional MPO in order to supplement the competitive and formula funding grants available from the FTA. Primarily Sun Metro applies for FHWA Congestion Mitigation and Air Quality (CMAQ) and Surface Transportation Program (STP) funding through the MPO. Funding from these grants are crucial to the agency's State of Good Repair (SGR) program and the resulting Transit Asset Management Plan (TAM). CMAQ funds provide for new and replacement bus funding, to include vehicles needed for new and extended services. Funding also allows for new or enhancements of terminals and stops to include accessibility and passenger amenities if associated with new or extended services. STP provides similar funding but without the new or extended service requirements. This grant funding not only permits Sun Metro to provide efficient and dependable service but supplements funding from other sources necessary to maintain State of Good Repair standards. In FY2019 CMAQ, the federal funding portion obtained through the regional MPO, will total approximately \$5.5M for operating assistance (Dyer and Alameda BRT's and Streetcar services) plus replacement funding for three buses. As of October 2018, Sun Metro had been awarded approximately \$7.1M of funds for new revenue vehicles that were unspent or pending, including grants obtained through the CMAQ program and other grant programs.

PUBLIC TRANSPORTATION AGENCY SAFETY PLAN (PTASP)

On September 18, 2020 the El Paso MPO adopted the mass transit provider Sun Metro's PTASP. Sun Metro developed their PTASP in compliance with the requirements on 49 CFR 673.11(a) (1-6). The performance measures adopted in this PTASP for fix route, streetcar and paratransit per every 100,000 miles are for:

- Fatalities
- Injuries
- Safety Events
 - Accidents
 - Incidents
 - Occurrences
- System Reliability

TABLE 23: PERFORMANCE MEASURES ADOPTED IN THE PTASP

| PERFORMANCE MEASURES-FIXED ROUTE PER EVERY 100,000 MILES | FISCAL YEAR | | | |
|---|-------------|------|------|------|
| | 2019 | 2020 | 2021 | 2022 |
| Fatalities | 0 | 0 | 0 | 0 |
| Injuries | 50 | 45 | 40 | 35 |

| | | | | | |
|---|-------------|--------------|--------------|--------------|---------------|
| Safety Events | Accidents | 178 | 50 | 45 | 45 |
| | Incidents | - | 78 | 70 | 65 |
| | Occurrences | - | 50 | 45 | 45 |
| System Reliability (Mean Distance Between Failures) | | 82,864 miles | 90,000 miles | 95,000 miles | 100,000 miles |

| PERFORMANCE MEASURES-STREETCAR PER EVERY 100,000 MILES | | FISCAL YEAR | | | |
|---|-------------|-------------|------------|------------|------------|
| | | 2019 | 2020 | 2021 | 2022 |
| Injuries | | 9 | 7 | 6 | 5 |
| Safety Events | Accidents | 2 | 1 | 1 | 0 |
| | Incidents | 9 | 7 | 6 | 5 |
| | Occurrences | 9 | 7 | 6 | 5 |
| System Reliability (Mean Distance Between Failures) | | 2,879 hrs. | 2,900 hrs. | 2,950 hrs. | 3,000 hrs. |

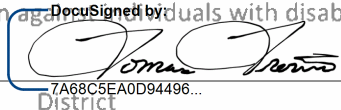

| PERFORMANCE MEASURES-PARATRANSIT PER EVERY 100,000 MILES | | FISCAL YEAR | | | |
|---|-------------|--------------|--------------|--------------|--------------|
| | | 2019 | 2020 | 2021 | 2022 |
| Injuries | | 8 | 8 | 6 | 5 |
| Safety Events | Accidents | 20 | 17 | 15 | 12 |
| | Incidents | 25 | 22 | 19 | 15 |
| | Occurrences | 32 | 25 | 23 | 20 |
| System Reliability (Mean Distance Between Failures) | | 87,019 miles | 88,000 miles | 90,000 miles | 91,000 miles |

MPO SELF-CERTIFICATION

In accordance with 23 CFR Part 450.336 and 450.220 of the Fixing America's Surface Transportation Act (FAST Act), the Texas Department of Transportation, and the El Paso Metropolitan Planning Organization for the El Paso urbanized area(s) hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

1. 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
2. In nonattainment and maintenance areas, sections 174 and 176(c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506(c) and (d)) and 40 CFR part 93
3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
5. Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101et seq.) and 49 CFR parts 27, 37, and 38 ;
8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

MPO SELF-CERTIFICATION FOR NON-ATTAINMENT AREAS CERTIFICATION STATEMENT

The following information provides a summary of policies, procedures, and planning activities of the El Paso Metropolitan Planning Organization (MPO) and its Transportation Policy Board set forth to meet the requirements of federal transportation and air quality planning regulations in carrying out the FY 2022 and FY 2023 Unified Planning Work Program for Regional Transportation Planning and biennial development of the Transportation Improvement Program.

Metropolitan Planning: 23 U.S.C. 134, 49 U.S.C 5303, and implementing regulations;

The EPMPO's planning process is based on using state-of-the-art procedures, encompassing accurate data and methodologies, applied in a professional and unbiased manner. This planning process is carried out through an open approach that includes all local, state and federal transportation and air quality related agencies and organizations, local elected officials, and the public in the decision-making process. The continued focus of the MPO planning process is on the use of innovative techniques, as well as facilitating communication and partnerships as key mechanisms for improving mobility and air quality.

This process is carried out through the implementation of the Unified Planning Work Program through Performance Based Planning and the development of a financial and fiscally constrained long-range multi-modal transportation plan for the region; the biennial development of the Transportation Improvement Program; the development and adoption of the Metropolitan Transportation Plan every four years; the ongoing implementation of the region's Congestion Management Process focusing on the Travel Demand Management (TDM), Transportation Systems Management (TSM), and Intelligent Transportation System (ITS) technology; working closely with transportation providers throughout the region to conduct major investment and corridor feasibility studies which serve to evaluate, refine, and select transportation options for implementation; and ensuring that policies, programs, and projects when implemented will result in improved air quality for the region through the air quality conformity process.

Statewide Planning: U.S.C. Title 23, Sec. 135, U.S.C. Title 49, Ch. 53, Secs 5307-5311 and 5323(I); and 23 CFR Part 450.220

EPMPO works closely with TXDOT-El Paso District Office, the TXDOT Transportation Planning and Programming Division, and the Texas Transportation Commission to support the planning, funding, and implementation of transportation improvements. Whenever called upon, planning assistance is provided to assist TXDOT in meeting Statewide Planning requirements. The MPO and the State share financial information to carry out the financial constraint requirements of the planning process.

Clean Air Act: Air Pollution Prevention and Control: In non-attainment and maintenance area, section 174 and 176 © and (d) of the Clean Air Act, as amended (42, U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;

It is the policy of the EPMPO and its Transportation Policy Board that the continuing, cooperative, and comprehensive transportation planning process carried out by the MPO shall be done in coordination with the transportation-air quality planning process carried out by the State of Texas. Furthermore, it is the policy of the EPMPO and its Transportation Policy Board to not adopt a Metropolitan Transportation Plan or a Transportation Improvement Program until each plan or program has been demonstrated to be in conformity with the State Implementation Plan for Air Quality, including the air quality conformity requirements as set forth in the Clean Air Act Amendments of 1990. Resources are allocated biennially as part of the Unified Planning Work Program to ensure the coordination of the EPMPO transportation and air quality planning activities, and support determination of the air quality conformity process of the Metropolitan Transportation Plan and the Transportation Improvement Program. The EPMPO is an active partner with state and federal agencies as a member of the Air Quality Conformity Consultation Process.

Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21; The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the bases of age in programs or activities receiving Federal financial assistance; and Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender;

The EPMPO is committed throughout the development of its plans and programs to ensure that no person on the grounds of age, gender, race, color, or national origin is excluded from participation in, denied the benefits of, or subjected to discrimination under any program receiving federal financial assistance. No plans, programs or policies developed or implemented by the EPMPO will have a disproportionately high adverse human health or environmental effect on minority and low-income populations. The EPMPO plans continue to work on improving the accessibility of employment to the identified protected populations. Further, many of the current MPO public meetings are held in minority and low-income communities in the region and are located near accessible public transit facilities. Funding is allocated as part of the Unified Planning Work Program for a Title VI Plan to maintain an analytical approach that produces procedures that meet Title VI requirements by ensuring that federally-funded transportation projects adequately consider effects on low-income and minority segments of the population.

Disadvantaged Business Enterprises (DBE) in planning projects: 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex or age in employment business opportunity; and Section 1101 (b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects; 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;

The EPMPO follows the City of El Paso's Disadvantaged Business Enterprise which in turn follows the TXDOT DBE Plan. Funding is allocated as part of the Unified Planning Work Program to maintain an analytical approach

that produces procedures that meet Environmental Justice requirements by ensuring that federally-funded transportation projects adequately consider effects on low-income and minority segments of the population.

Americans with Disabilities Act of 1990: The provision of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38; and Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

It is the policy of the EPMPO to ensure that all agency programs and services are accessible to people with disabilities and are in compliance with the applicable regulations as a condition of receiving Federal financial assistance from the Department of Transportation. The EPMPO will make reasonable accommodations to a qualified individual with a disability who attends on-site meetings, and meeting facilities meet this requirement. Every effort is made to ensure that meeting facilities off-site are ADA accessible. A notice is published in advance of all MPO public meetings that reasonable accommodations will be provided for meeting locations on and off-site with a phone number and contact persons listed to provide assistance if needed. As direct recipients of FTA Section 5310 (Enhanced Mobility for Seniors and Individuals with Disabilities Program) funding, the EPMPO staff is actively involved in various ADA-related initiatives which are being carried out by the sub-recipients, and the review of ADA compliance documents developed by the region's transit and paratransit agencies, all of which focus on ensuring that transportation programs and services across the region are accessible to those citizens with disabilities.

Restrictions on influencing certain federal activities: CFR 29, Part 20;

It is the policy of the EPMPO that no state or federal funds received by the agencies shall be paid to any person for the purpose of influencing the award of a federal contract, grant, or loan or the entering into of a cooperative agreement. No state or federal funds received by the agencies shall be used directly or indirectly to influence any member of Congress, any member of the State Legislature, or any local elected official to favor or oppose the adoption of any proposed legislation before any federal, state, or local legislative body.
