

APPENDIX D: ENVIRONMENTAL CLEARENCE PROJECTS

ENVIRONMENTAL CLEARANCE PROJECT LIST

Appendix D contains a list of projects which are undergoing environmental analysis consistent with early project development. The intent of this appendix is to identify projects that are not planned for construction within the four-year time-frame of the Transportation Improvement Program (TIP). Consistency with the RMS 2050 MTP will be verified as alternatives are explored in these studies and environmental clearance efforts.

The Federal Highway Administration (FHWA) requires these projects to be referenced in the TIP to complete the feasibility and environmental analysis phases. This appendix contains projects that are shown in the RMS 2050 MTP and not programmed in the RMS 2023-2026 TIP. This appendix in no way implies that these projects are programmed in the RMS 2023-2026 TIP.
